5TH MAY 1886, No. 338 I. PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation
Account.

READ—the following letter from Lieutenant-Colonel J. PENNYCUICK, R.E.,
Superintending Engineer, VI Circle to the Chief Engineer for Irrigation,
dated Kodaikanal, 11th April 1886, No. 15 M.D.:—

I have the honor to draw attention to the fact that no experiments have yet been made with the lime which it is proposed to use in the construction of the Periyár dam, although (as has been more than once pointed out) it is highly desirable that such experiments should be made before the work is actually begun.

2. Although the construction of this work is postponed, the present is a good time for carrying out these experiments, as we have now an officer specially employed in the completion of the road from Gúdalúr to the foot of the Gúdalúr ghât, and he could superintend them without difficulty.

3. It is difficult to say how much money would be required, but I should think Rs. 500 would do all that is necessary. If this sum could be placed at my disposal either from Provincial Funds or from any other source, I will undertake to see that it is properly spent.

ORDER—dated 5th May 1886, No. 338 I., Public Works.

The Government sanction the proposal to carry out experiments with the lime intended to be used in the construction of the Periyár dam.

2. This sanction has been registered as No. 9 I. of 1886-87, and classified as shown below:—

Irrigation.
42. Minor Works and Navigation.
Agricultural Works.

Works for which neither Capital nor Revenue Accounts are kept.

Miscellaneous.
Original Works.

Experiments, Estimate Rs. 500

3. The results of the experiments should be duly reported for the information of Government.

(True Extract.)

Captain, R.E.,
Under Secy. to Govt., P.W.D.,
Irrigation Branch.

To the Superintending Engineer, VI Circle.
" Chief Engineer for Irrigation.
" Examiner, Public Works Accounts.
" Revenue Department.

Periyar Project

Lime intended to be used in the construction
of the Periyar dam.—Proposal to carry out
experiments with the — sanctioned.

OFFICE OF THE SUPERINTENDING ENGINEER,

6TH CIRCLE.

Rodaikanal 11th April 1886.

No. 15 M.D.

From

The Superintending Engineer,

6th Circle.

To

The Chief Engineer
for Irrigation.

Sir,

ENCLOSURE

I have the honor to draw
attention to the fact that no ex-
periments have yet been made
with the lime which it is proposed
to use in the construction of the Peria-
dar dam, although (as has been more
than once pointed out) it is highly
desirable that such experiments
should be made before the work
is actually begun.

Although the construction of
this work is postponed, the present
is a good time for carrying out

these experiments, as we have
 now an officer specially employed
 in the completion of the road
 from Gudalur to the foot of the
 Gudalur Ghat, and he could
 superintend them without difficulty.

It is difficult to say how
 much money would be required,
 but I should think Rupees 500
 would do all that is necessary.
 If this sum could be placed at
 my disposal either from Pro-
 vincial Funds or from any
 other source, I will undertake
 to see that it is properly spent.

I have the honor to be

Sir

your most obedt servt
