G.O. No. 618h

DATED 19/2/96

[Despatch Abstract.]

Establishment — The entertainment of certain temporary — required for taking surveys in connection with the proposed road from Gurugala to Macherla in Krishna Northern Dist.

[illegible]

G.O.	No.	Department.	Date.	G.O.	No.	Department.	Date.

no 618 w of 19 Feb 1896

Read the following

From the Suptg: Engineer II circle, No 2283 K.S.d/5 February 1876

Sanction is accorded to the entertainment of the following temporary establishment required for taking surveys in connection with the proposed road from Guruzala to Macherla in the Krishna Northern Division.

1. Surveyor on Rs 80 per mensem
for one month
1. Lascar on Rs 8 per mensem
for one month.
5. Lascars on Rs $7\frac{1}{2}$ each per mensem
for 16 days.
2. The sundry charges connected with the survey should be

NOTES.

REFERENCE TO MADRAS P. W. D. CODE,
EDITION OF 1886.

PARAS. 25 & 26.

1. The column headed "present scale" should invariably show the sanctioned scale for the time being and not the strength of the actual (whether above or below sanctioned) establishment as it happens to stand at the time. The "present scale" should be verified by the examiner before the proposal is submitted to government for sanction (paras. 25 and 26).

2. In the column "average or fixed pay," financial value, not mean value, should be given.

3. The financial value should in the case of progressive appointments be calculated as follows:—

(1) If the period of rise from minimum to maximum is 5 years, the average will be the minimum plus two-thirds, or if the appointment is a ministerial one, plus three-fourths, of the difference between the minimum and maximum (C. S. R., Art. 164).

(2) If the period of growth exceeds five years (as in the case of accountants) the $\frac{1}{5}$ th fraction should be decreased by $\frac{1}{50}$ th of the difference for every year by which the period exceeds five; the fraction for periods in excess of five years will therefore be as follows:—

$$6 \text{ years} = \frac{3}{4} - \frac{1}{50} = \frac{44}{50}$$

$$7 \text{ years} = \frac{3}{4} - \frac{2}{50} = \frac{43}{50}$$

$$8 \text{ years} = \frac{3}{4} - \frac{3}{50} = \frac{42}{50}$$

and so on; so that when the period of growth is 20 years the financial value will be the exact mean.

PUBLIC WORKS DEPARTMENT, MADRAS.

Tabular Statement showing the proposed Changes in the Establishment of the P. W. Department, Madras Presidency.

The entries within under the head, "Present scale" have been checked and found correct [subject to exceptions noted below *].

Examiner of P. W. Accounts, Madras.

* The words in brackets should be scored out when there are no exceptions to be noted.

P. W. D. FORM,
No. M 184.

Letter from the Executive Engineer, Kish Northern D., to the Supg Engineer, 2nd Circle
of 17th January 1896, No. 545 S.E.

Ref. this Office No 456 S.E. of 21.11.95.

Herewith submitted a note on the alignment proposed for the Machela - Renta Chintala Road and an estimate and proposition statement for a Surveyor and lascars for one month and 5 Survey coolies for 16 days for taking the necessary Survey.

The establishment in Palnad Taluk consisting of one upper subordinate only, it is impossible for the investigation required to be undertaken by him without detriment to his works.

The establishment, if sanctioned, will be entertained in the first opportunity, but as the work is for so short a time and the locality remote, there may be some difficulty in getting a man.

When the Survey of the Budawaru Project is finished, one of these men might be put on this job if no one is procured in the interim.
