Resolution—dated 15th December 1896, No. 435.

The Superintendent, Government Press, will be requested to print 2,000 copies of the Famine Code and to distribute them as shown in the annexed statement I as early as practicable; supplies being made first to the Collectors of the Deccan districts and Ganjám. The Superintendent will keep the type standing, as more copies may be required. The correction slips that may be issued hereafter will also be distributed by the Superintendent, the number to be distributed being that shown in column 4 of the statement.

2. The distribution within each district will be made by the Collector according to table II appended to these Proceedings. Subordinate officers such as Public Works Department Overseers, Revenue Inspectors, &c., who may be employed on relief operations will be supplied with reprints of the portions of the Code with which they are concerned, when occasion arises. The copies to be kept in reserve are intended to meet extra demands for officers of the Salt and Abkári Department and such special relief officers as may be appointed when distress is anticipated or when famine relief operations are actually started in a district.

3. The officers to whom unbound copies of the Code have already been supplied may return them to the Superintendent, Government Press, and get bound copies instead.

4. Plans for insertion in appendices IV and V will be distributed as soon as they are received.

RESOLUTION—dated 15th December 1896, No. 435.

The Superintendent, Government Press, will be requested to print 2,000 copies of the Famine Code and to distribute them as shown in the annexed statement I as early as practicable; supplies being made first to the Collectors of the Deccan districts and Ganjám. The Superintendent will keep the type standing, as more copies may be required. The correction slips that may be issued hereafter will also be distributed by the Superintendent, the number to be distributed being that shown in column 4 of the statement.

2. The distribution within each district will be made by the Collector according to table II appended to these Proceedings. Subordinate officers such as Public Works Department Overseers, Revenue Inspectors, &c., who may be employed on relief operations will be supplied with reprints of the portions of the Code with which they are concerned, when occasion arises. The copies to be kept in reserve are intended to meet extra demands for officers of the Salt and Abkári Department and such special relief officers as may be appointed when distress is anticipated or when famine relief operations are actually started in a district.

3. The officers to whom unbound copies of the Code have already been supplied may return them to the Superintendent, Government Press, and get bound copies instead.

4. Plans for insertion in appendices IV and V will be distributed as soon as they are received.

(True Extract.)
