Letter from Captain W. M. Ellis
R. E. Engr. Engineer, District Northern
D. to the Supg. Engineer, Civil, 25.3.97, No. 880 S. E.

Your No. 3624 K. N. of 16.3.1897
and previous correspondence re-
garding the submission of
estimates for Demindari Railway
affecting tanks.

Only 3 tanks were selected
for investigation out of the four
mentioned by the Collector; provision
for investigating three only was
made, viz,

Mustabad

Kurwid

Suravaram

2. Of these an estimate was sub-
mitted for Mustabad Tank
with this Office no 832 S. E. dated
10.3.97. About Kurwid some
delay must occur in determining
the proper extent of the water spread.

The Estimate for Suravaram
tank will be submitted in a few
days, but it is the last of a long
string of tanks most of which
have inefficient escapes and the
tank might very easily be breached
even

even after the repairs now provided
for owing to the breaching of some
of the up tanks.

If the Zemindars set up this
as a reason for not carrying out
the repairs they would probably
be successful in a Court of
Justice.

3. The Collector now asks
that Koygur tank be taken up
and investigated and a proposition
Statement for a Surveyor on R. 60/-
and 4 hasars for 1/2 month is
submitted to provide for the
investigation.

It will be impossible to
submit estimates for this tank
before the end of May - mean
while action might be taken
in the case of Mustahad Tank.
