The Secretary to the Board of Revenue,

Land Revenue,

Madras.

Sir,

I have the honour to state that the building in which my District Press is located is in a very dilapidated condition. During the heavy rains of November last, the building leaked very badly and the Press machinery had to be shifted from place to place. Thereupon, the Executive Engineer was asked to inspect the building and to execute the necessary repairs. That officer in his reply No.832 M,d/9th January 1897 (copy enclosed) states that extensive repairs to roof and walls are required, and that as the latter are of mud and very badly cracked, he would recommend the construction of a new building, as being in the end the more satisfactory course to adopt. He estimates the cost of a new building at about Rs.6,000. I therefore request that the Board will be pleased to move Govt. to order the construction of a new building for the District Press.

2. The building is one of several very old structures lying within my office compound, and it has undergone repairs every year from 1891-92 to 1894-95. Earlier information is not readily available, but judging from the flimsy nature of the materials, it appears to have been repaired almost every year.

I have &ca.
