From

To

The Secretary to the Commissioners of Land Revenue, Madras.

Sir,

With reference to Board's Proceedings No. 2485 Mis, dated 29th May 1896 and in continuation of this office Dis No. 2446 dated 7th July 1896, I have the honour to report that Mr. Tremenhew was unable before he left the District to visit the Hospet Taluk to consider the advisability of constructing an additional latrine in the Taluk office compound. Subsequently on 5th October 1896 the Superintending Engineer of the 3rd Circle sanctioned an estimate for Rs. 400 for constructing an open latrine without consulting this office and the work has been commenced when the Tahsildar brought the matter to notice. The Executive Engineer who was then addressed in the matter reported that it was an oversight that the estimate was not sent for countersignature of the Collector and requested to know if the work might be carried on. Mr. Campbell issued instructions to keep the work in abeyance pending Board's orders in the matter.

2. The dimensions of the existing latrine are smaller than those of the standard design communicated in Board's Proceedings, No. 251 dated 12th May 1896 and measure only 19' by 6'. The Executive Engineer thinks a new latrine is necessary as the vicinity in which it is being built is generally in a filthy condition.

been
As the work has already begun under Superintending En-
gineer's orders and the superstructure built to a height of
2 feet, it does not now seem desirable to abandon it. I re-
quest therefore that the Board will be pleased to accord its
sanction to resume the work and complete it. The estimate and
plan received from the Executive Engineer are enclosed for re-
ference and return.
