THE SUPERINTENDING ENGINEER.

ENCLO :

SIR,

In reply to your No 143 C.I.
dated 10th March 1897, I have the honor
to report that the Kotur watchman
will have to cover 9 or 10 miles every
day. The distance one way being $4\frac{1}{2}$
to 5 miles. This man's present pay
is Rs 4 a month and I do not
believe that this man or any other
watchman (pensioned men or special
cases excepted) on Rs 4 a day give
Government the whole of their time.
No private body or person would
ask for, expect to get, or get a whole
time man on Rs 4 a day and if
Government persist in holding
the

the singular view that they are able to do so, the result will continue to be that Government work is not properly done.

2. I am under the impression that Mr. Loan's tappal arrangements are not very satisfactory at present and one stage depending on a Rs 4 cooly would be enough to upset it.

3. Even a watchman should be given a living wage and I consider the Kotur and other watchmen should get Rs 6 a month whether they carry tappal or not.

I have the honor to be,
Sir,
Your most obed^t. servant.
