Calcutta, the 8th January 1897.

Estimates of loss of Railway revenue and of the increased expenditure caused by scarcity.

SIR,

To enable me to furnish the Government of India with reliable estimates of the loss of Railway Revenue attributable to the scarcity and of the increased expenditure in the Public Works Department caused by the scarcity, under the ordinary heads and under 33—Famine Relief, I have the honour to request you will, after communication with the Local $\frac{\text{Government}}{\text{Administration}}$, submit to me, estimates showing the estimated decrease of revenue or increase of expenditure attributable to famine both in the current and in the ensuing year.

2. The estimates should be accompanied by explanatory notes showing clearly the effect of the famine or scarcity on the estimates of Revenue and Expenditure under the ordinary heads of account as well as under "33—Famine Relief"—"Works in charge of Public Works Department."

3. Under the orders communicated in my Circular No. 6 of 1896, all expenditure incurred under the management of the Public Works Department is now to be finally adjusted in the Public Works Accounts, and I am therefore to request that in preparing these estimates the local Accountant General or Comptroller may be consulted in view to the prevention of expenditure being omitted or twice taken into account by reason of absence of arrangement between the Civil and Public Works Departments.

4. The estimates herein called for should reach me as soon as possible, and I request you will take special and immediate measures to obtain accurate and complete information on the subject.

If this information cannot be furnished so as to reach this Office by the 25th January, the amounts under each head should be communicated by telegraph by that date.

I have the honour to be,

SIR,

Your most obedient Servant,

A. R. BECHER,

Offg. Accountant General.
