No. 1370 W. dated 22nd May 1897

PROCEEDINGS OF THE MADRAS GOVERNMENT.

READ the following

From the Superintending Engineer IV Circle, No. 558/W, dated 6th November 1896.

---------- Do ---------- Do --------No. 182/W, dated 1st April 1897.

The Government of India will be addressed.

Suptg. Engineer IV Circle. R 25/5/97

(H.E. No. 1371 W dated 22nd May 97)

To

The Secretary to the Govt. of India

Military Department.

Sir,

I am directed to request that a special allotment of Rs. 7,500 may be made from ~~the~~ Imperial Military funds to enable this Department to refund to the Travancore State the expenditure incurred by the latter in the up-keep of Military works at Quilon during the period from 1890 to 1895.

2. Under an arrangement made in the year 1887, the repairs to Military roads and buildings at Quilon were intrusted

A.H. 15.5.97

B P.W.S. 21/5/97

[P. W. 40. 300—13-3-97.]

H.E. 20-5-97 R 17-5-97

intrusted to the Chief Engineer Travancore, and the necessary funds were to be provided by the Executive Engineer West Coast Division, from the annual alloiments. It now appears that during the period from 1890 to 1895, the Chief Engineer Travancore, carried out the works from the funds of that State and did not ask for a refund of the expenditure until recently. It has since been arranged that when repairs works are carried out in future, the cost shall at once be debited to this Department.

I have &c.

To

The Superintending Engineer
IV Circle
Coimbatore

Sir,

In reply to your letter No 370 25-1-97 I have the honor to inform you that until recently it has been the practice to meet, in the first instance, any expenditure incurred on behalf of the British P.W.D. from Travancore Government funds and subsequently to recoup the same by periodic demands on your department.

I have already taken steps to put a stop to this procedure so that, in future, expenditure on works carried out on behalf of the British P.W.D. shall be debited immediately to them.

I have the honor to be
Sir
Your most obedient servant
(Signed) W. Joyce
Chief Engineer

Repairs Military		Lump sum	"	"	26,000	26,000	7,500	33,500									

This amount is required to meet expenditure incurred in previous years (1890-95) on Military Repairs at Quilon by the Chief Engineer, Travancore on sanctioned estimates, but the outlay could not be adjusted then and there as the statement of works carried out has just been received.

Orders by the Government of _____

Dated the 6th November 1896.

(Signature) Asstg Engineer 4th Circle

Secy. to Government of _____

No. _____, dated the _____ 189 .

P. W. Department.

NOTES.

Reference to P. W. D. Code.

Chapter XV, section vi, para. 199.

1. This form should be used by the Executive Engineer or the local Government in any of the following cases:—

(*a*).—When a grant, or an addition to an existing grant, is required for carrying on a sanctioned major work.

(*b*).— When a grant for a work is found to be in excess of requirements, and it is proposed to resign it, either wholly or in part.

(*c*).—When it is proposed to utilize the grant for one work upon some other.

2. Either of the columns for "Proposed new grant" or for "Proposed reduction," or both, may be used as required.

3. If it happens that the grant already allowed has been reduced, the entry in the column "Existing grant for the current year" would of course be the amount less such reduction.

4. In the case of Irrigation works, the entries in the column "Departmental and service head" should show distinctly whether the proposed re-appropriation is debitable to Capital or Revenue, and the entries in the column "Works" should be so arranged as to show the project to the Capital or Revenue account of which the charge is debitable, and the class of service to which the charge is debitable, thus:—

_____ PROJECT.

(1).—HEAD WORKS—

(*B*). Land.
(*K*). Buildings.

In cases of Productive public works, the fact of their being so should be noted against the entries.

5. It being of the utmost importance that early intimation of possible lapses, or of excesses, in outlay on works should be communicated to the Government, a close watch should be maintained on the progress of all works, and this form employed the moment the facts are sufficiently known.

6. Applications for re-appropriations which require the sanction of the Government of India should be submitted by the local Government in duplicate; applications by Executive Engineers should be submitted through the Superintending Engineers of their Circles.

EXPLANATION OF NECESSITY FOR RE-APPROPRIATION.
