LAND'S GEN. REG. NO. 2376 OF 1896  
LAND REVENUE

As COLLECTOR AND DISTRICT MAGISTRATE,

North Arcot,

TO

THE Secretary to the Commissioners of  
Land Revenue, Madras.

SIR,

I understand that the accommodation for the office establishment in the Deputy Tahsildar's office at Kalahasti is quite insufficient, the only room available for the establishment consisting of 5 Gumastaks, 1 attender and 2 copyists being a small room measuring  $17\frac{3}{4}$  feet  $\times$   $12\frac{1}{2}$  feet. It appears that in another part of the building, viz, near the Treasury, there is space for 3 or 4 men but it is not available for the Deputy Tahsildar's establishment, as it is used by the Police as Station House. A part of the establishment is therefore said to be working in the ryots' shed. The Deputy Tahsildar suggests that either the building may be extended

or the Police station shifted elsewhere.  
The Head Assistant Collector who personally  
inspected the building considers the accommodation  
absolutely insufficient and recommends extension  
of the building.

2-The building is on the Standard plan and the  
Executive Engineer informs me that the proposed  
extension is likely to cost more than Rs 500.

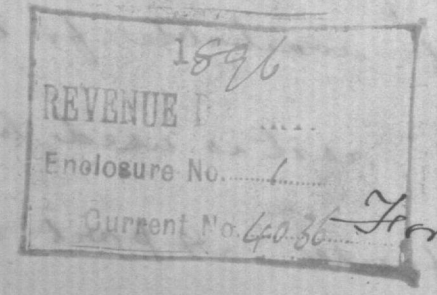

3. I have therefore the honor to request that  
the orders of Government be obtained for the  
execution of the work by Public Works  
Department at an early date.

if so

in office

PROCEEDINGS OF THE BOARD OF REVENUE.

(Land Revenue)

Dated 29th May 1896, No.2474 Mis.

Read letter from the Ag. Collector and District Magistrate of North Arcot, dated 4th May 1896, Ref. on C.No.375/Eng.

Resolution:-

Submitted to Government with the recommendation that orders may be issued in the Public Works Department for the preparation of plans and estimates for the extension of the Deputy Tahsildar's Office at Kalanasti. The accommodation available for clerks in the present building, which was apparently constructed on an old standard design, is quite insufficient, being only 222 square feet against 408 square feet provided in the revised standard design circulated with G.O. 3122 W., dated 20th November 1891.
