DeMorgan Esquire, Executive Engineer, Gauhati
Division to the Superintending Engineer 1st Circle

With reference to your No. 898 Gn, 8.12.96, I have the
honour to inform you that Pannine tools uti-
-lized on ordinary works under sanction
of Subg Engineer No. 271 Gn 10.6.95 do not appear
to have been replaced.

2. The indent was sent to Supg Engineer's office for certain tools and returned for resubmission accompanied by Estimate. No further action appears to have been taken, in the Division office.

3. Famine tools appear to have been used in discrimination on ordinary works and some were written off on account of "Wear and Tear".

THE CHIEF ENGINEER

PUBLIC WORKS DEPARTMENT.

WALTAIR, Camp Chapalur. 8. Jan 1897.

SIR,

With reference to your memorandum No. 3908C dated the 5th 96, I have the honour to inform you that some of the Famine Tools which became unserviceable were written off the account since 1893. Sanction was accorded in this office No. 271 G.N. dated 10th 95 to utilize famine tools for ordinary works under para 5 of G.O. no. 3116 2-12-93 provided they are replaced as soon as possible.

2. Mr. De Morgan states that when Rushikulga Project was in full swing, a large number of tools was more than once transferred from the Gangue Division, and it would appear that the Executive Engineer of that Division omitted to replace them and bring his reserve up to the sanctioned scale. Copy of Mr. De Morgan's last reply no. 75E 7 dated 18th 96 is herewith enclosed from which it
