Sir,

With reference to G. O. No 218 W dated
23^d January 1897, I have the honour to submit
2 plans and an Estimate amounting to
Rs 14,840/ for alterations and improvements
to the Medical Stores, at Madras.

4906 CD 17.12.96

In my No 4377 dated 30th November 1878
I stated that a 18 B W G. roof should be
erected over the whole of the buildings. I was
informed that the terrace roof was an in-
different one and the way the water poured
through when I was there in the rains
made me think so too. Since the rains I
have examined the roof most thoroughly
and a finer terrace could not be made.
I found however it had been neglected
and being turned all over in a stupid way

By

By making whole I found the concrete
excellent and a thickness of about 14 inches
to the timber. I also found that the slopes
of the roofs were quite insufficient, practi-
cally I levelled over all, and in some places
found the weeps above the adjacent sur-
faces. What is proposed to be done is
explained in the report with the Esti-
mate: - is cut out, good slopes in the
concrete, & more weep holes, finishing with
a very strong plaster.

Reference to the Estimate will show
that for this work and some other necessary
work only Rs 3738/- is estimated the
remainder Rs 1102/- is for work asked
for by Surgeon Major Carruthers, the
majority of it being for the Bottle shelves -
at present he has large quantities of bottles,
medicines, instruments, lint, sponges etc
littered over the floors - is probably what
he wants is altogether necessary.

I have divided the Estimate in order
that orders may at once be given me
to proceed with the roof work - the better
the weather the more difficultly there
will be in doing it: - so I trust that
this portion of the Estimate will be
sanctioned at once, the remaining
portion.

portion can be done later on

I have the honour to be

Sir

Your most Obedient Servant

W. Davis.
