G.O., No. 1785 W., 2nd July 1897.

JULY.

Proceedings, Revenue Department, concurring in the remarks of the Famine Commissioner that the Collector's estimates of requirements in the matter of —, should be accepted without demur during the continuance of the famine, communicated to Superintending Engineers.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper :—

G.O., No. 481, Revenue, dated 21st June 1897.

Read—the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 8th June 1897, Mis. No. 4160, on memorandum from the Public Works Department, dated 2nd June 1897, No. 411 D. :—

Communicated to the Collector of Anantapur.

2. The Famine Commissioner would submit to Government, with reference to sections 15 and 24 of the Famine Code, that the Collector's estimates of requirements should be accepted without demur.

Order—No. 481, Revenue, dated 21st June 1897.

The Government concurs in the remarks of the Commissioner.

2. As head of the relief administration in the district, the Collector is responsible for seeing that a sufficient number of tools is provided for the labourers employed on, or likely to come on relief works; this cannot be regarded as a matter of merely technical or professional nature during the continuance of the famine. This ruling does not, however, relieve the Public Works Department of its responsibility in the matter previous to famine.

Rev. Dept. 80.481 after

Jan 11

1785W

This order places on the
S.W. Dept. the responsibility
of seeing that a sufficient
number of tools is provided
previous to famine. - Such
being the case, it will,
apparently, be necessary,
immediately the present
famine is over, to revise
the existing sanctioned
scale in the light of the
experience then gained.
and to deposit the tools
at the places where they
are likely to be needed.

It will be observed from
803116 was 2nd Dec 73 that
the existing scale was
adopted by order on the
advice of the Board of
Revenue. It has proved
unreliable in actual
practice. The new scale
might be framed on the
advice of Supt. Engineers.

Meanwhile, the present
order will have to be con-
sidered to the Dept. It
might be accompanied
with the remark that
steps will be taken hereafter
to revise the sanctioned
scale of famine tools.
