Account.

READ—the following paper :—

From Lieutenant-Colonel C. C. RAWSON, R.E., Superintending Engineer, V Circle, to the Chief Engineer for Irrigation, dated Chepāk, 27th January 1897, No. 27 E.I.

I have the honour to submit, for sanction, the enclosed revised estimate of Rs. 2,170 in the form of a comparative statement for improving Vadakarai Kohoor channel branching from Thirumalarajanar left bank, mile 64, in Kumbakonam taluk, Tanjore division, showing an excess of Rs. 550 over the original estimate of Rs. 1,620 sanctioned in G.O., No. 1022 I., dated 26th November 1895.

The necessity for the revision of the estimate is explained in the remark column of the comparative statement.

No. 36 I.

Submitted to Government. Of the excess of Rs. 550, a sum of Rs. 100 is due to more land being required than approximately estimated for in the original estimate, and the balance chiefly to its being now found not possible to utilize the spoil from the cutting for the embankment, as the earth would have to be carried a distance of some 2,000 feet. This difficulty ought to have been foreseen in preparing the original estimate.

15th February 1897.

(Signed) W. HUGHES,
Chief Engineer for Irrigation.

ORDER—No. 186 I., dated 23rd February 1897.
