Famine-relief works.—Reviewing the programme of — for 1897-98 from the Collector of North Arcot.

PROCEEDINGS OF THE BOARD OF REVENUE

(Revenue Settlement, Land Records and Agriculture).

Read—the following letter from S. H. WYNNE, Esq., Collector and District Magistrate, North Arcot, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated Camp, Palmanér, 12th May 1897, Dis. No. 990-Eng.:—

I have the honour to submit herewith the programme of famine relief works for the year 1897–98 in statements A, B and C.

2. The programme provides labour for 22 per cent. of the total population of the district for three months. The provision made in all taluks and divisions except Arcot is generally sufficient to afford employment to nearly 20 per cent. of the population. No provision has been made in Palmanér taluk under land improvement as the Tahsildar does not anticipate any applications being received for loans.

3. The additional projects have been entered at the end of statement A as ordered in B.P., dated 1st July 1896, No. 153. The other works entered in it cover an expenditure of Rs. 36,18,285, of which nearly 8 lakhs represent outlay to be incurred on irrigation works, 18 lakhs on road works and 10 lakhs on miscellaneous works. Five forest fencing works at a cost of Rs. 15,100 have also been provided for in the list.

4. In reviewing the programme for last year the Board remarked that the provision under road works is excessive and that none of the projected new roads have been sanctioned and called for a report as to whether the Local Fund Board is prepared to maintain in an efficient state the new roads if they are constructed by means of famine labour. I beg to report that the Local Fund Board with the limited funds at its disposal cannot maintain all the roads that may be constructed by means of famine labour. But practically no works except roads can be devised in proprietary estates which form nearly half of the district.

Resolution—dated 12th June 1897, No. 432.

The abstract of the programme of famine relief works for 1897–98 received from the Collector of North Arcot will be submitted, as revised by the Board, for the information of Government.

2. The programme contains provision for different classes of works, as noted below:—

		Cost. Rs.
Irrigation works	New	1·45 lakhs.
	Repairs	6·34 „
Forest fencing works		0·15 „
Roads	New (1,515 miles)	12·93 „
	Repairs	5·33 „
Miscellaneous	Drinking water-supply	5·70 „
	Removing prickly-pear, &c.	1·48 „
	State loans for land improvement	2·76 „

The total cost of the works proposed amounts to Rs. 36,15,485 and is calculated to provide employment for a period of three months to about 23 per cent. of the

population of the district. The provision, though on the whole adequate, falls short of the prescribed minimum and is also generally less than that made in the last year's programme in the taluks and divisions noted in the margin. The deficiency is particularly marked in the Arcot taluk. The Collector suggested last year that want of work in this taluk, as well as in Wandiwash, could be met by the excess provision made in the adjacent taluks of Walaja and Polúr. Such a remedy, however, should be resorted to only when local resources are either exhausted or unavailable. In the present case, it is observed that no provision has been made for seventeen of the works stated to be out of repair under Revenue Department in Arcot, nor for one under Public Works Department in Wandiwash. Besides the two small projects, Mukkur tank and Mahadevamangalam, shown in the last programme against the latter taluk, appear to be omitted from the present. The Collector will be requested to see whether the provision may not be amplified in each of the tracts mentioned above.

	1896–97. Per cent.	1897–98. Per cent.
Vellore taluk ...	19·38	18·93
Arcot „ ...	16·81	16·32
Wandiwash taluk ...	16·81	18·92
Palmanér „ ...	19·79	18·03
Puttúr division ...	19·94	19·47
Punganúru division ...	22·75	19·04

3. With reference to the provision made for many road works which the Local Boards will admittedly be unable to maintain, the Collector explains that he is at a loss to devise any other sort of relief work in the proprietary estates which form nearly half of the district. The difficulty is a real one, and the Board is at present unable to see any way out of it.

4. Of the thirteen irrigation works mentioned at the end of paragraph 3 of B.P., dated 1st July 1896, No. 153, and which were required to be brought under sanction, only three are large and the rest small works in accordance with the definition of "large" and "small" laid down by the Government of India and referred to in paragraph 4 of B.P., dated 1st May 1896, No. 84. Of the three, two remain still unsanctioned and one in the Palmanér taluk is shown, in the present programme, as an additional work, along with three others, at the end of statement A. The approximate cost of these four works amounts to Rs. 3,43,500 as detailed in the margin. Nos. (1) and (2) have thus stood on the list for the last few years. The Chief Engineer for Irrigation will be requested to inform the Board at what stage each of them is at present, and whether any of them will be fit for inclusion in the body of the statement of the next year's programme. Similar information is also required with regard to the rest.

	Rs.
Gudiyáttam taluk—	
(1) Murthona project	3,00,000
Chittoor taluk—	
(2) Berab tank of Iral	30,000
Palmanér taluk—	
(3) Thotakanniah Putlamma-cheruvu	10,000
Chendragiri taluk—	
(4) Small anikat project ...	3,500
	3,43,500

5. Detailed estimates are stated to be ready for Rs. 16,34,265 or 49 per cent. of the total provision, exclusive of land improvement works and 37 per cent. of the amount provided for large works is brought under sanction. This is satisfactory especially when compared with the last year's programme.

6. (*a*) In Walajah taluk, the total approximate cost of new small roads is Rupees 40,200 and not Rs. 43,000.

(*b*) In Palmanér, the taluk total in column 8 of statement A is 30,766 and not 30,776.

(*c*) In Punganúru division, the work of restoring the late famine road from Sadam to Nanjampet is shown under new roads in both the statements A and C, whereas it should be shown under repairs.

(*d*) The total number of works shown in statement B. as in and out of repair is 3,565 while it is given, in the irrigation statement No. 15 for fasli 1305, as 3,514. This discrepancy should be explained.

(*e*) In Tiruttani division, the number of new roads against "small" is shown as 19 in statement C while it appears from statement A to be 9.

(*f*) In Punganúru division, the number of wells is omitted in column 20 of statement C, while it is shown as 90 in statement A.

The necessary corrections have been carried out in this office in the statements concerned. The Collector will be requested to carry them out also in his office copy.

7. In the Arni jaghire a causeway across the Kamandala river on the Arni-Arcot road to cost approximately Rs. 15,000, is added to the list of new roads. It appears to involve masonry and skilled labour and to be therefore ill-adapted for purposes of famine relief.

(True Copy and Extract.)

(Signed) L. E. BUCKLEY,
Famine Secretary.

To the Secretary to Government, Revenue Department.
" Collector of North Arcot.
" Chief Engineer for Irrigation.

Exd. A. F. Eccleston.
