I have the honour to forward herewith
for favour of early sanction an estimate amounting
to Rs 11,600 for excavating a supply channel to
the Yaprak & Kolical tanks, Rayadurg Taluk,
Bellary District.

- 17
- 1 per book post.
- 2. At the request of the collector the work
has already been started as a Famine Relief work.
- 3. I have not yet seen the place myself, &
thought that the tanks could probably be supplied
at less cost, by enlarging the existing spring
channel and holding up water in it to the level
necessary to supply the tanks. But the Executive
Engineer informs me that this would involve

No. 486

S. 2 S. P

Report to accompany estimate for
Improving supply channel to Yefraul
and Uolical Tanks.

Lat: 14°-44'
Long: 77°-5'

Estimate Rs 11,870.
11,800

Existing Condition:

The existing project consists of three two tanks, and a spring channel for direct irrigation from the River Haggari.

This channel does not supply the two tanks, and it is proposed to realign it so that it should.

The ayant under the three sources is 817 acres, of which 483 ^{are} ~~is~~ now left waste. It is intended that the improvements should rectify this.

The proposed improvements may be divided into three.

- (a). Improving existing channel from the river to the ^{point} ~~point~~ A, on survey, where there is a dividing

18/1/97
15/1/97

dividing dam. This portion is not
shown on the survey. Longitudinal
and Cross sections are attached.

This will have to be enlarged
to carry sufficient water for storage
in the two tanks as also for the
direct irrigation under the
existing Channel.

(b). New Channel from A to B,
which will be run at a higher
level than the old one thus
filling the Yaprak tanks.

(c). New Channel from B' to C
to supply the Kothikal tanks.

A calculation sheet showing
the required breadth of these
Channels is attached.

There are some cross drainages
to be provided for the estimate
allows Rs 400 for one 150 feet long,
and Rs 400 for minor works.

Two pipe aqueducts will be
required to provide for existing
rights

The details of the last items are
not available. I will inspect
the work in about a week. The
estimate is submitted for sanction
as it is necessary to commence
execution immediately as a Famine
Relief work.

23-11-96
Executive Engineer

As Mr. Smith was proceeding at
last night work as a Famine Re-
lief work, an upset letter
was received from the Dy. Commr.
to say a Famine Relief work
was in progress and that he
changed my tour, I have not
inspected - I shall do so
about the 10th in the mean while

CHIEF ENGINEER
FOR IRRIGATION.
