In submitting herewith my journal for March 1897, I have the honour to state that, as the re-sluicing and bridge works in the Thadapally channel were urgently required to be completed before the opening of the channel, I had to halt at Gobi for more than 10 days (ten) from 11th to 30th, and request that you will be kind enough to allow me daily allowance for the whole period, as the distance to travel every day being large, I had to keep camp equipage.
