General,
Account.

READ—the following paper:—

From A. L. H. PALMER, Esq., Superintendent of Telegraphs, Madras Division,
to the Chief Secretary to Government, dated Madras, 29th December 1896,
No. 7256.

I have the honour to report, for your information, that I have discovered that when this department reduced its rates for the supply of telephone circuits from Rs. 36 to Rs. 20 per half mile of wire on 1st January 1890, the rates were changed for every circuit except that connecting the Madras Observatory with Messrs. Orr & Company's clock, which was overlooked evidently by some oversight. I have consequently brought this matter to the notice of the Director-General of Telegraphs who has now instructed the Examiner of Telegraph Accounts to charge Rs. 20 per half mile of wire with effect from 1st January 1890, and to allow the Madras Government a credit for the amount overcharged.
