Area affected—Condition and prospects of.—The affected area has increased from 17,941 square miles to 23,351 square miles. The increase is due to the absorption of hitherto unaffected tracts within the area of distress.

Early crops were laid down in all the affected districts to a certain extent, especially in Vizagapatam.

The condition of cattle was still poor in the Deccan districts, but their prospects have been much improved by the rain that fell at the end of May, and for a few days in the middle of June; a little pasture is now sprouting on the red soils, and some tanks have received a supply.

The improvement, which was anticipated on account of the good fall of rain in the middle of the month, was retarded by the sudden cessation of the monsoon, and the condition of the country at the close of the month gave cause for much anxiety.

2. *Nature of works.*—As before, the work given consisted chiefly of road construction and repair.

3. *Operations under the Loans Acts.*—In addition to the numbers employed on State relief works, about 15,000 persons are reported to have been employed in land improvement works, for which Rs. 1,56,000 were disbursed during the month as shown in the subjoined table :—

Districts.	Land Improvement Loans.								Number of wells		Estimated number of labourers employed.

Cuddapah	27	7,635	21	3,190	4	410	7	410	7	34	378
Total ..	265	45,665	261	28,576	1,163	1,83,429	1,103	1,21,555	23	1,249	15,347
Grand Total ..	269	46,565	264	28,926	1,180	1,85,769	1,145	1,26,575	23	1,252	15,347

4. *Wages* were calculated on prices varying from 10 to 14 seers to the rupee. Workers were mainly in receipt of the B wage, which averaged about Annas 1–7 for a man. Nearly all of those on the C wage are weavers.

5. *Gratuitous relief.*—Owing to the extension of the organisation of village relief with money-doles for those who, by caste, are prevented from attending kitchens, the number on gratuitous relief increased to 137,474. The proportion of those on gratuitous relief was large only in Ganjám, where conditions are peculiar.

6. *Prices.*—The price of all grains rose steadily throughout the Deccan, except in the case of ragi in Cuddapah. Prices rose rapidly in the Circars, especially in Vizagapatam, where ragi grew dearer by nearly 30 per cent. Staple grains are much above scarcity rates every where, the most marked case being that of ragi in Ganjám, which is 33⅔ per cent. above the scarcity rate.

7. *Imports and Exports.*—The activity of trade is shown by the subjoined figures :—

—	Imports and exports by rail.			
	May.		June.	
	Imports.	Exports.	Imports.	Exports.
	I. MDS.	I. MDS.	I. MDS.	
Ganjám	6,000	25,200	14,000	
Vizagapatam	57,900	5,200	88,00	
Kurnool	13,800	5,100	11	
Bellary	53,100	23,500		
Anantapur	16135	31,699		
Cuddapah	10,848	15,311		

* Figures incomplete.

Ganjám, Bellary, Anantapur and Cuddapah continue to export largely; the exports from Bellary are, however, more than counterbalanced by the imports. The large exports may be ascribed to the same causes as were detailed in the last report.

8. *Condition of the people.*—The condition of the people was on the whole fair, except in Ganjám, the reason for which has already been explained. Towards the close of the month the swift rise in prices in Vizagapatam threatened to cause a rapid deterioration in the condition of the people, but the necessities of the situation were promptly met.

9. *Mortality.*—The following table shows the deaths in May 1897 and in the period, October—May 1896-97, and the average rates for the same periods. Figures for June are not yet available :—

Districts.	Number of deaths reported			
	During May.		From October to May.	
	1897.	Average.	1896–1897.	Average.
Ganjám	6,009	2,159	25,191	15,560
Vizagapatam	3,527	2,639	20,815	22,574
Kurnool	1,536	1,586	9,498	11,837
Bellary	1,854	1,806	11,781	11,601
Anantapur	1,186	1,006	8,639	7,814
Cuddapah	2,401	2,059	16,231	18,804

The excessive mortality in Ganjám during both periods is ascribed to cholera and small-pox, and in Vizagapatam, during the month, to cholera.

tanks [illegible]

Vizagapatam	3,527	2,639	20,815	22,574
Kurnool	1,536	1,586	9,498	11,837
Bellary	1,854	1,806	11,781	11,601
Anantapur	1,186	1,006	8,639	7,814
Cuddapah	2,401	2,059	16,231	18,804

The excessive mortality in Ganjám during both periods is ascribed to cholera and small-pox, and in Vizagapatam, during the month, to cholera.

Famine Statement B.

For the period ending 26th June 1897.

Area affected—Condition and prospects of.—The affected area has increased from 17,941 square miles to 23,351 square miles. The increase is due to the absorption of hitherto unaffected tracts within the area of distress.

Early crops were laid down in all the affected districts to a certain extent, especially in Vizagapatam.

The condition of cattle was still poor in the Deccan districts, but their prospects have been much improved by the rain that fell at the end of May, and for a few days in the middle of June ; a little pasture is now sprouting on the red soils, and some tanks have received a supply.

The improvement, which was anticipated on account of the good fall of rain in the middle of the month, was retarded by the sudden cessation of the monsoon, and the condition of the country at the close of the month gave cause for much anxiety.

2. *Nature of works.*—As before, the work given consisted chiefly of road construction and repair.

3. *Operations under the Loans Acts.*—In addition to the numbers employed on State relief works, about 15,000 persons are reported to have been employed in land improvement works, for which Rs. 1,56,000 were disbursed during the month as shown in the subjoined table:—

Districts.	Land Improvement Loans.								Number of wells		Estimated number of labourers employed.
	For wells.				Other purposes.

Grand Total ..	269	46,565	264	28,926	1,180	1,85,769	1,145	1,26,575	23	1,252	15,347

4. *Wages* were calculated on prices varying from 10 to 14 seers to the rupee. Workers were mainly in receipt of the B wage, which averaged about Annas 1–7 for a man. Nearly all of those on the C wage are weavers.

5. *Gratuitous relief.*—Owing to the extension of the organisation of village relief with money-doles for those who, by caste, are prevented from attending kitchens, the number on gratuitous relief increased to 137,474. The proportion of those on gratuitous relief was large only in Ganjám, where conditions are peculiar.

6. *Prices.*—The price of all grains rose steadily throughout the Deccan, except in the case of ragi in Cuddapah. Prices rose rapidly in the Circars, especially in Vizagapatam, where ragi grew dearer by nearly 30 per cent. Staple grains are much above scarcity rates every where, the most marked case being that of ragi in Ganjám, which is 33⅔ per cent. above the scarcity rate.

7. *Imports and Exports.*—The activity of trade is shown by the subjoined figures:—

—	Imports and exports by rail.			
	May.		June.	
	Imports.	Exports.	Imports.	Exports.
Ganjám	I. MDS. 6,000	I. MDS. 25,200	I. MDS. 14,000	I. MDS. 18,000
Vizagapatam	57,900	5,200	88,000	1,800
Kurnool	13,800	5,100	• 11,400	• 5,600
Bellary	53,100	23,500	61,500	25,000
Anantapur	16135	31,699	11,516	21,528
Cuddapah	10,848	15,311	7,126	16,614

• Figures incomplete.

Ganjám, Bellary, Anantapur and Cuddapah continue to export largely; the exports from Bellary are, however, more than counterbalanced by the imports. The large exports may be ascribed to the same causes as were detailed in the last report.

8. *Condition of the people.*—The condition of the people was on the whole fair, except in Ganjám, the reason for which has already been explained. Towards the close of the month the swift rise in prices in Vizagapatam threatened to cause a rapid deterioration in the condition of the people, but the necessities of the situation were promptly met.

9. *Mortality.*—The following table shows the deaths in May 1897 and in the period, October—May 1896–97, and the average rates for the same periods. Figures for June are not yet available:—

Districts.	Number of deaths reported			
	During May.		From October to May.	
	1897.	Average.	1896–1897.	Average.
Ganjám	6,009	2,159	25,191	15,560
Vizagapatam	3,527	2,639	20,815	22,574
Kurnool	1,536	1,586	9,498	11,837
Bellary	1,854	1,806	11,781	11,601
Anantapur	1,186	1,006	8,639	7,814
Cuddapah	2,401	2,059	16,231	18,804

The excessive mortality in Ganjám during both periods is ascribed to cholera and small-pox, and in Vizagapatam, during the month, to cholera.

Famine Statement B.

For the period ending 26th June 1897.
