and tracing.

In continuation of my letter No. S.6528 of 8th July 1897, I have the honour to enclose a copy of a quotation from Messrs. Brinjes & Goodwin for the boiler &c. for the Chemical Laboratory of the Presidency College and I have to inform you that the boiler has been ordered in accordance therewith.

It is thought that the plant ordered is an improvement on that specified in the indent as the provision of 4 tubes in the boiler for heating sealed glass tubes would have made it unduly large and that the separate vessel will be much more convenient.

I have the honour to be, Sir,

Your obedient Servant,

Ernest A. Smith

Director General of Stores.
