OFFICE NOTE No. 50587A

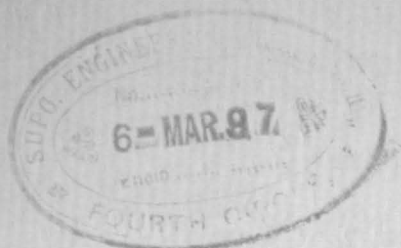

To W.

Your O. N. No. 745 C. dated 6th. February 1897.

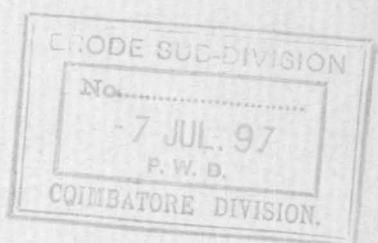

I know of no precedent for such a charge. Fruit trees are at times planted in compounds of Govt. Buildings which are built for residences. I do not know whether it is usual to plant for purposes of shade the compounds of office or other purely business buildings, but if it is, there is no reason why fruit trees should not be planted in preference to other trees. I presume that the maintenance of the trees in such cases is incumbent upon the Department using the building.

Enquiries made shew that Mr.
Ashpitel, the late Eee. Engineer,
ordered the trees & had them
planted.

The trees will be useful for
purposes of shade. The prisoners
in the Subjail are made to water
the trees. The trees have been care-
fully attended to so far, and are
in good Condition. They will
not require watering or alte-
-ration after another 2 or 3 years.
I believe the Tahsildar can be
depended on to look after the
trees.
