READ—the following paper :—

Memorandum from the Secretary to Government, Local and Municipal Department,  
No. 875, dated 16th August 1897.

The Sanitary Engineer is requested to furnish this office with copies of the plans, showing the main lines of the water pipes, which are to be supplied at an early date to the Municipalities in which waterworks have been completed. The working plans of each project must show the lines of pipes, and it is believed that it will not entail much labour to transfer them to a map of the Municipality concerned.

2. The Public Works Department is requested to furnish similar plans on the completion of the works in other towns in which water-supply schemes are either now in progress or will, in future, be undertaken.

ORDER—No. 2356 W., dated 25th August 1897.

Communicated to Superintending Engineers for information and guidance.
