Sir,

Referring to the annual Public Works Indent No. 1 dated 11th January 1897, I have the honor to observe that there is some doubt as to what is required with regard to item No. 427 "Nails rosehead, $1\frac{1}{2}$ " long with round head $\frac{3}{4}$ " diameter".

The head of a $1\frac{1}{2}$ " rose head nail would not be $\frac{3}{4}$ " diameter, and a round head nail, i.e. $\frac{3}{4}$ " $1\frac{1}{8}$ "

of the dimensions specified in the indent, is very unusual, the nearest approach to it being a brass headed nail.

I shall be obliged if you will furnish me with further particulars of what is required pending the receipt of which the supply of the nails is necessarily suspended.

I have the honour to be, Sir,

Your obedient Servant,

Grant

Director General of Stores.
