No.

Copy of a letter from H. A. Moss Esquire, General Superintendent, P.W. Stores, to the Superintending Engineer, 5 Circle, No. 141 S. dated 19th August 1897.

I have the honour to submit for transmission to Government an annual estimate of Stores required from England for 1898-99 for the Public Works Department.

The amount of the estimate for the year 1897-98 was £6,080 but in addition there were several supplemental estimates and local purchases. This estimate now submitted for 1898-99 viz £ 14461 which exceeds that of the previous year by £ 8,381 has been increased so as to avoid such local purchases and supplemental estimates as far as possible.

The principal items of excess are in

	£
(1) Machinery	2,323
(2) Metals	1,873
(3) Painter's stores	1314
(4) Miscellaneous	752.

We have no machinery, (Engines, boilers, and pumps) for issue and the provision made in the supplemental estimate for the current year was struck out for want of funds; nor have

have we many useful sizes of Iron and other necessary stores in stock and we have therefore to purchase locally to a large extent owing to the recent increase of work in the shops.

The submission of this statement was delayed owing to the late receipt of that due by Superintending Engineer 5th Circle viz 11th August 1897.

No 335.W.

To the Chief Engineer P.W. Department
through the Examiner, P.W. Accounts.

Enclosures 3.

To the Accountant
P. W. Dept

will you kindly let
the Secretariat have
copies of the estimate of
stores, which was
forwarded through
I.G. with your office
letter No 1461-S dt 15.8.97.

The estimate was
overdue, & we had
not time to copy it,
we sent it away
in draft. We now
enclose copies for
office record.

You will find
here office copy. Can
have a copy made
here, & return
the former.

NOTES.

Reference to P. W. D. Code.

Chap. X, para. 82.

1. In order to facilitate the preparation, by the India office, of the estimates of expenditure on stores, an annual forecast of stores required from England, in this form, should be prepared by each branch of the Public Works Department and State Railway, so as to reach the Government of India in the Public Works Department on the 1st August of each year.

2. Separate estimates should be prepared of stores required for Imperial Services and for Provincial Services or Incorporated Local Funds, and they should be carefully framed on the basis of previous experience, modified to meet the known or probable requirements of the Service for the year which they may represent.

3. All articles of which the aggregate value purchased or received during the year does not exceed Rs. 1,000, should be grouped together under each class as shown in the form; the classification in the two lists in appendix O, Public Works Code, volume I, being followed as closely as possible.

4. In the case of stores required for the general and irrigation branches, the estimates should show clearly the heads of service and funds to which the amounts are chargeable in accordance with the number and classification of account heads, as may be laid down from time to time by the Public Works Department.

5. The amount should be given in English currency, so that there may be no misunderstanding as to the cost in sterling money.

6. In the case of estimates of stores submitted by railways, the probable requirements on capital account should first be entered, and then, separately, the probable requirements on revenue account.

7. In the columns for expenditure of the three preceding years, the total expenditure on English stores, whether incurred locally or through the agency of the Secretary of State, should be inserted.
