local allowance to be drawn by him will be Rs. 100 per mensem. When the proposed roads are in full construction, it is probable that he will be assisted by two upper subordinates, and the allowance will then amount to Rs. 200 per mensem. As the project is expected to be completed in 8 years, the total expenditure is estimated at Rs. 19,200 exclusive of the monthly charge of Rs 100 to be incurred until the work is in full operation. The Headquarters of the staff will be within the Anaimalai Hill Tracts.

3. The lower subordinate, and petty office establishments to be employed in connection with the project will be sanctioned under Temporary Establishment, and as they will not be entitled to the local allowances their salaries will be fixed with reference to local disadvantages in accordance with the decision conveyed in para 2 of letter from the Govt. of India

No:

No: 694 G. dg. March 1889.

4. In regard to the inquiry whether or not the increased daily allowance is covered by Article 1252 of the Civil Service Regulations, I am to reply in the affirmative and to say that the special sanction applied for in my letter No: 505 W of 20th February 1897 was thus unnecessary.
