2. With reference to the observation in paragraph 5 of B.P., No. 4876, dated 3rd July 1897, that the remarks of the Superintending Engineer bearing as they do on matters non-professional are out of place, the Government is of opinion that it is the duty of Public Works officers to bring to notice any shortcomings they may find in the administration of relief works, and that Mr. Larminie's remarks are perfectly legitimate.

RESOLUTION—No. 571, dated 14th August 1897.

Recorded.

2. What the Famine Commissioner meant by paragraph 5 of B.P., No. 4876, dated 3rd July 1897, was that it was not for the Superintending Engineer to comment on non-professional matters in a report submitted to the Chief Engineer; the proper course being for him to report to the Collector any shortcomings he might have seen. This is the course laid down in section 39 (b) of the Bombay Famine Code.
