Memorandum from the Government of India, Home Department, No. 109 (Education), dated 15th May 1897.

Memorandum from the Government of India, Home Department, No. 142 (Education), dated 11th June 1897.

Resolution—Since the issue of Public Works Department Resolution No. 2112-G., dated 19th July 1892, quoted in the preamble, the conditions for the practical training and appointment to the department of passed students of the Engineer class of the Thomason Civil Engineering College, Rurki, have been changed, and it has become necessary to modify Rule IV of the regulations contained in the resolution quoted above. The Governor-General in Council is accordingly pleased to direct that the rule shall be altered as follows:—

IV.—Recruits from the Indian colleges other than the Thomason College, Rurki, shall be appointed as apprentices on Rs. 100 per month, and shall remain on probation until they have proved their thorough fitness for service in the department. They shall then be promoted to 3rd-grade Assistant Engineer on Rs. 250 and shall be required to pass the examination laid down in Public Works Code, Volume I, Chapter II, paragraphs 23—25, before promotion to 2nd-grade Assistant Engineer. If they are not recommended within three years for promotion to 3rd-grade Assistant Engineer, they shall be liable to removal from the department.

For the purpose of awarding to students of the Thomason Civil Engineering College, Rurki, the five guaranteed appointments in the Public Works Department, not more than ten qualified civil engineering students will be appointed in the order of merit in which they stand in the final examination list as apprentices in the Public Works Department, and will be allotted to the several Local Governments and Administrations, in the proportion of two apprentices (one being from among the first five in the order of merit) to each guaranteed appointment, so far as the numbers of students who qualify may admit.

On the expiry of one year the Local Government or Administration shall decide as between two apprentices serving under it in respect of a guaranteed appointment, whether either or both have proved, in the course of their practical training, their thorough fitness for appointment to the Public Works Department. If the Local

Government or Administration decide that neither has proved his fitness, it may dispense with the services of either or both, or may extend the probation of either or both for a further period not exceeding two years from such date. If the Local Government or Administration decide that one only of the two has proved his fitness, it shall appoint him to be an Assistant Engineer, 3rd grade, and discharge the other. If the Local Government or Administration decide that both are fit for appointment, it shall select and appoint to be Assistant Engineer, 3rd grade, the apprentice who stood first in order of merit in the college final examination, and in discharging the other, shall cause to be endorsed on his college certificate a certificate of his practical fitness. In any case the appointment made should be reported to the Government of India, for information, and for confirmation of the appointment.

Their further promotion will be regulated by the same rules as that of other Assistant Engineers of the Provincial Service.

An apprentice shall receive a salary of Rs. 100 a month if an European or Eurasian, and of Rs. 50 if a pure native of India.

2. That portion of Rule IV relating to the Thomason College, as reconstructed above, shall not apply to students who entered the college in April 1897 after undergoing the examination for entrance into that college in November 1896, but it shall apply to all subsequent entrants.

Order.—Ordered, that the above resolution be circulated to the Local Governments, Administrations and officers noted in the margin, and that it be published in Part I of the *Gazette of India*. Ordered also that it be forwarded to the Government of India in the Finance and Commerce, Home, and Revenue and Agricultural Departments.
