FROM
Herbert Bradley, Esq.,
COLLECTOR OF
Coimbatore,

To
THE SECRETARY TO THE COMMISSIONERS OF *Land Revenue*,
Madras.

SIR, *Peru*

In reply to the Board's reference, dated July 20th 1891;
I have the honour to state that I was not aware that
it had been decided that new Taluk offices should be
built with a northerly aspect. Three new off^{ices} were
completed in this district, those at Kollegal, Gobichetti
Palaiyam and Bhavani, all have southerly aspect.

2. I would also point out that this is not a Taluk
catchment but a Deputy Tahsildar's office, so that it
is not clear whether the Government order quoted,
No. 74 TW, P. W., dated 14th March 1891 applies, and not
having the Standard plan before me in camp I cannot
say whether the afternoon sun will or will not
shine straight into the Deputy Tahsildar's Court or
the prisoners' cells.

3. I would also submit that since the introduc-
tion of Stationary Magistrates whether the aspect
of the building be north or south the afternoon
sun

Sun must shine either on the wall of the Tahsildar's or the Stationary Magistrate's Court which are at opposite ends of the building though not directly into either.

4. If it is considered essential that the building should have a northerly aspect a different piece of land can be acquired.

Letter from the Executive Engineer Coimbatore Division, to the Superintending Engineer, Fourth Circle, dated 18th June 1897 no. 2417.

The enclosed tracing shows the site selected for the Dy Tahsildar's office to be built at Perum-durai. (G.O. no. 707 W. dated 10th March 1897) and approved by the Collector.

2. The building ought to be placed facing the road; this will necessitate a south aspect.

3. In G.O. No. 747^W dated 14th March 1891, Government has ordered that all Taluk Offices should have a north aspect.

4. I have the honor to request permission to construct this office with a south aspect.

Resolution.

Submitted to Government with reference to its Endt.
R. NO 1274, dated 8-7-97.

2 The rule laid down in para 2 of B.P 498/21-2-91 disposed
of in G.O 747/14-3-91W requiring that the front of the build-
ing should face the north, applies strictly only to taluk cut-
cherry buildings constructed according to the revised standard
design. The rule should also be followed, if possible, in the case
of Deputy Tahsildars' cutcherries, but as the afternoon sun will
not shine straight either into the Deputy Tahsildar's Court or
into the prisoners' cells, the Board sees no objection to the
proposal to construct the Deputy Tahsildar's cutcherry at Perun-
durai with a south aspect.
