No 720 of 1896

Godavari District General

To

The Collector of the Godavari District

Sir, In reply to your endorsement Ref. No. 1863/Eng of 1896, dated the 11th instant on letter No 5846 dated 5.12.96 from the District Judge, Godavari, I have the honor to state that the proposed Site for the District Munsiff's Court building at Narsapur marked in green colour in the enclosed Sketch is undoubtedly more suited to public convenience than the site on which the Existing Court stands. Myself and the District Munsiff personally saw the place and considered it as the best available ground for Court house. It lies on the outskirts of the town by the side of the Mogaltur Canal and is in every way calculated to afford greater convenience to the parties and is free from the

the ordinary buzzing and noise which attends the present Court owing to its location in the midst of the town by the side of the main bazar. The pleaders also will not feel any inconvenience as it is not far off from the town. It is just on the southern outskirts of the town as stated above.

2. The proposed new site is a portion of an Enfranchised Inam belonging to Abdul Bibi and Khaji Munshi Abdul Majid Sahib. The total recorded extent of which is 9^{a} - 49^{c}. There are many palmyra and other trees standing on the entire Inam as specified in the margin. The land is not under cultivation, but only the usufruct of the trees has been annually leased out by the owners.

248 palmyra trees big
40 do small
29 mango trees
4 Tamarind trees.

3. The owners have no objection to sell the site required for the Court house, but demand price at the rate of 4 annas per square yard which means Rs 1210 per acre on the ground that house sites in another Inam at a furlong distance towards the town side from this Inam were purchased in the current year by the local post master and a few others at this rate. The village officers say that the rate demanded by the owners is exorbitant and propose Rs 400 per acre may be fair and reasonable. I, however, think that Rs 500 per acre will not be too much, as the land is in close vicinity of the town and contains a large number of palmyra and other trees standing on the land. The trees will fetch some money, if they are sold by auction. The expense for acquiring the site will, therefore, probably be Rs 2000 for the whole four acres of land required. It will be necessary to acquire the land under the Land Acquisition Act, as the owners would not agree even to the Rs 500 rate.

4. The present buildings with the site attached thereto may probably fetch about Rs 2000 if sold by public auction. Much depends on the extent of competition among bidders at the time of sale.

5. The sketch received with the letter under reference and a copy of the village

village officers' report are enclosed.

Dated 23rd January 1897.

Sir,

With reference to your letter No. 156 d/ the 8th instant and its enclosures, I have the honor to inform you that the site selected for the construction of the District Munsiff's Court house at Narsapur is more suited than the site on which the present Court house stands and that I approve of it.

2 The amount of compensation Rs 2000 will be included in the estimate which has just been received from the Executive Engineer and which will be forwarded to you after scrutiny in my office.

To

D.W.G.Cowie Esquire,
Registrar of the
High Court of Judicature,
Madras.

Sir,

I have the honor to forward, for submission to Government, the plan and estimate amounting to Rs.21,200 for constructing a new Court house for the District Munsif of Nursapur.

2. It will be noticed that the estimated cost includes a sum of Rs.2000 required for purchasing a fresh site for the new building, and I request that Government may be moved to sanction the acquisition of the site shown in the plan accompanying the estimate.

3. In G.O., NO.945, Judicial, dated 8th May 1895, sanctioning a new Court house for the District Munsif of Nursapur, the question was raised whether it would be more economical to construct the new Court house on fresh site and to dispose of the present building together with its site by auction, or to demolish the present Court house, sell the materials and build on the present site. Mr. Mackenzie, in communication with Mr. Garrett, Superintending Engineer expressed himself in favor of building the new Court house on the present site.

4. But Mr. Moberly, in consultation with the Collector

and Mr. Larminie, Superintending Engineer, considered the proposed site better suited to public convenience. The Nursapur Deputy Collector's letter (copy enclosed) shows that the present Court house is situated in a noisy part of the town and that it can be sold for Rs.2000 - the sum required for acquiring the proposed site.

5. A copy of Mr. Larminie's letter is also enclosed.
