GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From MUHAMMAD RAZA KHAN, Esq., Sub-Collector and *Ex-Officio* Chairman, Municipal Council, Tiruvannamalai, to the Secretary to Government, Local and Municipal Department (through the Collector of South Arcot), dated 11th August 1897, Ref. on No. 258-Eng.

Adverting to paragraph 2 of G.O., Mis. No. 985 M., dated the 26th April 1897, directing the removal of some toll-gates with the view that they should be placed on the borders of the municipality, I have the honour to report that, on the principle therein enunciated, all the toll-gates already established here require removal and that two toll-gates have also to be added to the eight now existing. Further, the municipal limits, as they stand at present alongside of four roads do not, from various causes, admit of the construction of toll-gates, &c., at the municipal limits. To avoid evasion of tolls and to secure convenient places for the erection of the toll-gates, slight modifications of the municipal boundaries are required. With this object, a list of revised boundaries is submitted herewith.

2. The accompanying map will show the toll-gates now existing and the places to which they are proposed to be transferred, as also the proposed alterations in the municipal boundaries. The alterations in the boundaries and the necessity for the same are explained below.

3. Along the Salem frontier road, the new boundary line proposed is made to run along the southern margin of the road so as to include the road instead of on the northern margin of it, as hitherto, to prevent evasion by the cart-track a, a, a, and to transfer the old toll-gate No. 1 to a place across the road beyond a, a, a. The Kanji road is bordered on both sides by deep ditches and wet fields for nearly a furlong at the limits. It is therefore proposed to place the new toll-gate to be opened on this road at its junction with the hill road marked as N. T. G. No. 10 and to alter the boundaries there so as to terminate at the junction. Along the Póluru and Avalurpet roads, the boundaries have been re-drawn closer to the town to give a secure place to the tolls contractor, the present limits being at a considerable distance from inhabited houses. No alterations in boundaries at any other points are proposed.

4. In this connection I may mention that the tolls have already been let on contract, that a compensation of Rs. 16 a month has been sanctioned by the council on account of additional establishment charges likely to be incurred by the tolls contractor for the two new toll-gates proposed, and that he claims an additional compensation of Rs. 7 a month should the gates be opened at the municipal limits as they stand now.

5. The revised boundaries do not involve the inclusion of any new lands. They include a small length of roadway on one side and exclude as large extents of roadway at two other points as well as a few lands which pay about Rs. 30 to the municipality by way of land-tax. I request that the revised boundaries may be accepted and the draft notification ordered to be published, so that the new toll-gates may be opened from 1st October next.

Endt. No. 776-Eng.

Forwarded. As the alteration of the boundaries proposed does not bring in any new land within municipal limits, the notification may be approved.
