BACK PAPERS.

FURTHER PAPERS.

Office of the Executive Engineer
on special duty,
Astoria, 6 September 1897.

From,

J. F. Somers Esq.,
Executive Engineer,
on special duty,

To,

The Superintending Engineer,
Fourth Circle

Sir,

In accordance with the Chief Engineer's
instructions on his inspection of 11 August 1897,
I have the honor to submit a proposition statement
for a surveyor for employment on the City Drainage
investigation.

This investigation has not proceeded as
rapidly as I could wish, as the time of the
Supervisor is chiefly taken up with the execution
of the present sanctioned estimates. The work
on these nearly all consist of bad foundations
and in this wet weather require very careful
supervision.

The plans for the main bazaar are nearly
ready, and his time will then be chiefly
utilized in carrying them out. There is a
large

Enclosure
Proposition
Statement.

Dec 1

large quantity of levelling and plotting to be
done and I consider it highly advisable
to employ a Surveyor, whose work I can
easily superintend.

I beg that sanction may be accorded
at a very early date, as I have a man
ready now, but he may get another appoint-
ment and I do not know where to find
another.

I have the honor to be,
Sir,

Your most obedt. servant,

J. F. Somers
Executive Engineer
on special duty.

NE 495 of 13-9-97

Submitted to the Chief Engineer
P.W.D. with a request that he will be good
enough to obtain the sanction of Govern-
ment to the accompanying Proposition
statement.

Hannay

Supt. Engineer 4th Circle
