30th July 1897.

With reference to the demand in Madras annual Public Works indent No. 1 of 11th January 1897, for 12 measuring tapes 7 feet long, I have the honour to enquire as to the purpose for which these are required and whether 6 feet tapes would not meet the requirements.

Seven feet is a special size and tapes of this length would be proportionately much more expensive than 6 feet tapes.
