No. 370 *g.*

Note The Executive Engineer proposes

that the materials of the old taluk cutches
at Chidambaram which is in a very

dilapidated state he sold and the site
cleared away so as to be utilised for the

new sub registrar's office and Post office
at that time. The collector approves the

at that station. The collector approves the proposal and the Suptg. Engr. recommends it for the sanction of G. E. There seems

it for the sanction of Govt. There seems to be no objection to accord this sanction,

it is reported that the materials would
fetch a considerable sum and that the

~~the~~ site would be useful for the two of

5. As regards these estimates, however, considering that the old building is one of the old style catcheries and that it is in a very dilapidated state, it would, in my opinion, be found far more satisfactory in the end to clear it entirely away and to construct new buildings for the Sub Registrar's office and Post office. The area of ground covered by the old building would be quite sufficient to allow of both these buildings being built on the site, even if part of the Taluq Catchery Compound was not utilized for one of them. In the latter case, a part of the ground might be sold as it is a valuable building site. The materials of the old building would probably fetch a considerable sum. If you should consider the above proposals advisable, I request that you will address Government with a view to the cancelling of the sanctioned estimates above mentioned.
