Note for His Excellency the Governor

With reference to His Excellency's
rescript on draft order on C. No. 9142
it is submitted that all the works
for which allotments have been
proposed are incomplete works of
last year which could not be
postponed without loss to Govt
and that it is therefore absolutely
necessary that funds should be
provided for their completion.

The allotments are now sanctioned.

A. H.

30.9.97

The S. E. reports reports that
many of the works in the Bellary
Division for which funds are applied
for have already been completed and
that their accounts have not been
closed pending final payments.
If these payments are deferred, the
contractors would probably sue
Govt.

FURTHER PAPERS.

No.	Date.

NOTES.

Reference to P. W. D. Code,
Chapter XV, section vi, para. 199.

1. This form should be used by the Executive Engineer or the local Government in any of the following cases :—
(a).—When a grant, or an addition to an existing grant, is required for carrying on a sanctioned major work.
(b).—When a grant for a work is found to be in excess of requirements, and it is proposed to resign it, either wholly or in part.
(c).—When it is proposed to utilize the grant for one work upon some other.

2. Either of the columns for "Proposed new grant" or for "Proposed reduction," or both, may be used as required.

3. If it happens that the grant already allowed has been reduced, the entry in the column "Existing grant for current year" would of course be the amount less such reduction.

4. In the case of Irrigation works, the entries in the column "Departmental and service head" should show distinctly whether the proposed re-appropriation is debitable to Capital or Revenue, and the entries in the column "Works" should be so arranged as to show the project to the Capital or Revenue account of which the charge is debitable, and the class of service to which the charge is debitable, thus :—

PROJECT.

(1).—HEAD WORKS—

(B). Land

(K). Buildings

In cases of Productive public works, the fact of their being so should be noted against the entries.

5. It being of the utmost importance that early intimation of possible lapses, or of excesses, in outlay on works should be communicated to the Government, a close watch should be maintained on the progress of all works, and this form employed the moment the facts are sufficiently known.

6. Applications for re-appropriations which require the sanction of the Government of India should be submitted by the local Government in duplicate; applications by Executive Engineers should be submitted through the Superintending Engineers of their Circles.

BELLARY.

To

THE Chief Engineer,
P. W. D.

Madras

Sir,

/ Enclosures.

Floy A

With reference to your memo No. 3769 C of 6.9.97 I have the honour to submit herewith an application for reappropriation of budget grants to meet the demands on incomplete works of last year.

2. Many of the works for which funds are now applied for by the Bellary Division have been completed but accounts have not been closed pending final payments.

3. The expenditure on all Taluk Cutcheries in Bellary Division

Division has exceeded the ^{APPROPRIATION.} sanctioned estimates. The excess will be fully explained in the Completion Reports as soon as final payments are made, and submitted to you for necessary sanction of Government.

4 The work on the Talug office at Pattikonda has been ordered to Commence departmentally and as there is no probability of spending the full allotment within the current official year Rs 12,226/- has been surrendered.

I have the honour to be,
Sir,
your most obedient servant;

W. H. White
Superintending Engineer,
III Circle.
