3. The allotments made under Petty construction and repairs were utilized to a satisfactory extent during the year under report in all the districts except Godavari, Kistna and South Arcot.

4. The Collector of Godavari explains that the short expenditure in his district is due partly to the nonexecution of works provided for in the case of the Sea Customs Superintendent's office, Cocanada, which was found to require repairs costing more than Rs.500 and therefore coming within the scope of the department of Public Works, and partly to the fact that the provision made for the repair of Ghati sheds was not fully utilized, as owing to the failure of the North-East monsoon the sheds were not much damaged. The Collector of Kistna states that the provision of Rs. 707-0-0 for repairing the Office building at Nizampatam was not required as the work was completed and paid for in 1895-96. A portion of the savings was devoted to the repairs of the port boat at Masulipatam under the sanction

sanction of the Board. The short expenditure in South Arcot is due to the non-execution of repairs to certain godowns at Porto Novo as it is under contemplation to construct a separate warehouse. The Collector of Tinnevely ^{has} submitted a nil statement of expenditure but does not explain why the small sum of Rs. 22 provided for whitewashing certain Custom Houses in the District was not utilized.
