Sanctioning proposals for the exchange of certain — for the Divisional office building at the locality, which had been sold to a private party.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers:—

From A. E. C. VAS, Esq., Sub-Divisional officer, Dindigul, to the Executive Engineer, Madura division, dated 3rd August 1897, No. 709.

[Your No. 608, dated 9th July 1897.]

I beg to report that the buildings known as "workshop foreman's quarters and Police lines" at Periyár are vacant, as Periyár is not a place where people would like to rent these buildings. They are also in a dilapidated condition, and as such are only fit to be sold for dismantlement and removal of materials.

Very often there is occasion to employ coolies at Periyár main dam for work; just now coolies have to be employed for removing sand, charcoal, &c., from Periyár to Theekady for new sluice gates works. There are no buildings available in Periyár for hutting these coolies except the late "Divisional office" building which had been sold to Fr. Pagis, s.j., for Rs. 80 by Mr. Pears. Fr. Sigretine, the successor of Fr. Pagis, wants to remove the materials of this building to his tea plantation, but on my representing to him that this building is required back for hutting coolies and that it would be better for him to take other smaller ones badly situated in exchange, he has accepted the following proposals, viz., to give back the Divisional office costing Rs. 80 and take instead—

	RS.
(1) The workshop foreman's quarters and Police and fitters' lines ...	40
(2) The fitters' and foreman's quarters ...	20
(3) One split pulley not borne in tool account, unserviceable and treated as scrap iron ...	20
(4) 300 feet of canvas belting fast deteriorating, not borne in tool account ...	...
Total ...	80

Permission solicited.

No. 267 S.E.

Forwarded to the Superintending Engineer, VI Circle, for favour of orders.

2. The report was called for from the Sub-Divisional officer at the instance of the Examiner of Public Works Accounts, enquiring whether the buildings "workshop foreman's quarters" and "Police lines" at Periyár are vacant and whether any endeavours have been made to get tenants for them (*vide* Code, Volume I, Chapter X, paragraph 22).

3. The book value of the buildings, as given by the Superintendent of Works, late No. 1 Periyár, are—

	RS.
Workshop foreman's quarters ...	2,826
Police lines ...	2,489
