

occurred in all the districts
except Ganjam, Nellore,
Kurnool & Trichinopoly.
The decrease in these
districts are shown below:-

	Ass.	Rev.
Ganjam	3233	3649
Nellore	6809	10779
Kurnool	2643	12410
Trichinopoly	7276	21178

The decrease in the
Trichinopoly D. is only
apparent, being chiefly
due to the transfer of
irrigation under the
Nandya channel from
class IV to class II works.

The decrease in revenue
in the Ganjam D. was
small; but in the
Nellore & Kurnool D.
is attributed to the
unfavorable character
of the season. The remissions
granted during the year
aggregated Rs 349,885 or
Rs 547,012 less than in
the previous year.

READ—the following papers :—

From D. MARSHALL, Esq., Executive Engineer, Gódvári Western Division,
to the Superintending Engineer, I Circle, dated 4th February 1897,
No. 508 S.

I have the honour to bring to your notice that the Kaza branch of Vaddilanka channel, sanctioned in G.O., No. 221 I. of 4th March 1896, was completed from $\frac{5}{8}$ mile to end, but was breached throughout and silted up in several places by the floods of August 1896.

2. The enclosed estimate provides for restoring the Bank channel to proper section and appears to be chargeable to sub-head 6, Maintenance, main head (3), Distributaries—Open Capital Account, as the expenditure is incurred in removing silt and closing breaches before the original work is completed (please see paragraph 13, chapter V, Volume II, Public Works Code).

3. If this view is concurred in, please obtain sanction of Government to the estimate accordingly.

4. The work has been ordered to be completed pending necessary sanction.

No. 2375 G.D.

Copy submitted to the Chief Engineer for Irrigation for favour of obtaining sanction of Government to the enclosed estimate under the circumstances stated in the foregoing letter.
