S. d. W.

If the circles from which
they are taken are not
strengthened at once,
the progress of ordinary
works must seriously
suffer. Only 23
temporary men are
asked for for the
present to replace 38,
but the demand for
famine establishments is certain
to increase, & the under-
secretary will be unable
to detach any more
men from the ordinary
divisions unless im-
mediate help is given.
The men to be newly
appointed will take
some time to come &
to get into work.
