OFFICE NOTE No. 966 A/E.

To

E. W.

To enable me to exercise a complete check over the distances entered in the travelling allowance journals of officers and subordinates submitted to this office for audit, and to carry out the intentions of the Government of India as contained in article 1292, rule I of the C.S.R., I beg to suggest that orders be issued to all Superintending Engineers to make out and submit to you as early as convenient a complete set of Polymetrical tables of distances by road, showing, by divisions the distances between places usually inspected by Superintending Engineers, Executive Engineers, Assistant Engineers, subordinates etc. and which cannot be traced from route books.

2. It seems most desirable that complete Polymetrical tables of distances for the entire Presidency should be issued for the guidance of all

concerned

concerned, and without these the
requirements of audit cannot be
properly satisfied.
