PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following paper:—

From the Accountant-General, No. 3497, dated 11th November 1897:—

With reference to the Estimates of Finance expenditure for the current year in the civil and Public Works Departments respectively proposed in my letter No. 3267 dated the 20th October 1897, I have the honour to state that, in consequence of adjustments which are now being made between the two departments, the estimate therein given for the civil Department has to be reduced by Rs. 396,000 and that for the Public Works Department raised by Rs. 508,000. The transfer represents the erroneous debit to the civil Department of charges for Relief Works by Public Works officers in the Kurnool District, whilst the difference of Rs. 1,12,000 between the two figures under adjustment is due to the Examiner not having as yet adjusted it in his books though it was communicated to him in the exchange account for August last.

2. The estimate for the civil Department has to be further reduced by Rs. 265,000 as shown below with reference to the actuals for October and the latest estimates submitted by Collectors to the end of January next.

Last estimate.....3542

PROCEEDINGS OF THE MADRAS GOVERNMENT

Read the following paper:

From the Accountant-General, dated 11th November 1897, No. 920 Financial, dated 11th November 1897, that the amounts already reported to the Government of India as the probable charges under 53 FARMING RELIEF are 35 and 60 lakhs under the Civil and Public Works Departments respectively. For the reasons given by the Accountant-General there is no objection to the six monthly estimate being taken at 27 lakhs under Civil and the difference of 3 lakhs being added to estimate of 60 under Public Works Department making a total of 93 lakhs. The estimate for Public Works expenditure cannot be further raised for the reasons given in G.O. 920 Financial, dated 11th November 1897.

(True Extract)

Mr. Connelman

for Chief Secretary

Total for civil Department as now revised is 3077-396=2681.

3. The Examiner of Public Works Accounts, however, informs me that he hopes to send me a more definite forecast of requirements by the 20th instant. Adding 503 to 7318, the figure already advised, the total now stands at 78.26. In the circumstances, I beg to enquire whether these figures namely 2700 and 7300 in round thousands may be adopted in my Six Monthly Estimate for the civil and Public Works Departments respectively in lieu of 3300 and 6000 directed to be so taken in Government order No. 917 Financial dated 10th November 1897.

O R D E R :- No. 931, dated 15th November 1897.

The Accountant-General will observe from G.O. No. 920 Financial, dated 11th November 1897, that the amounts already reported to the Government of India as the probable charges under 53 FARMING RELIEF are 35 and 60 lakhs under the Civil and Public Works Departments respectively. For the reasons given by the Accountant-General there is no objection to the six monthly estimate being taken at 27 lakhs under Civil and the difference of 3 lakhs being added to estimate of 60 under Public Works Department making a total of 93 lakhs. The estimate for Public Works expenditure cannot be further raised for the reasons given in G.O. 920 Financial, dated 11th November 1897.
