**Account.**

Read—the following papers :—

From W. B. deWINTON, Esq., Superintending Engineer, III Circle, to the Chief Engineer for Irrigation, dated Bellary, 26th March 1897, No. 4701 I.

With reference to your memo., Nos. III/5 K.C. and 12/III, dated 25th February and 12th March 1897, respectively, I have the honour to submit herewith a revised application for the modification required in the allotments of Kurnool division, and to request that you will be good enough to obtain sanction of Government to the same.

2. The Division officer has been called upon to furnish a detailed explanation of the necessity for the present re-appropriation of grant as the one furnished by him was too general and is not clear.

3. As the official year is coming to a close, I request that you will be good enough to obtain early sanction pending the explanation which will be forwarded to you when received.

---

### Enclosure.

### Application to the Superintending Engineer for a re-appropriation of Budget grants.

## NOTES.

**Reference to P. W. D. Code.**

*Chapter XV, section vi, para. 199.*

1. This form should be used by the Executive Engineer or the local Government in any of the following cases :—

(a).—When a grant, or an addition to an existing grant, is required for carrying on a sanctioned major work.

(b).—When a grant for a work is found to be in excess of requirements, and it is proposed to resign it, either wholly or in part.

(c).—When it is proposed to utilize the grant for one work upon some other.

2. Either of the columns for "Proposed new grant" or for "Proposed reduction," or both, may be used as required.

3. If it happens that the grant already allowed has been reduced, the entry in the column "Existing grant for current year" would of course be the amount less such reduction.

4. In the case of Irrigation works, the entries in the column "Departmental and service head" should show distinctly whether the proposed re-appropriation is debitable to Capital or Revenue, and the entries in the column "Works" should be so arranged as to show the project to the Capital or Revenue account of which the charge is debitable, and the class of service to which the charge is debitable, thus :—

__________ PROJECT.

(1).—HEAD WORKS—

(B). Land

(K). Buildings

In cases of Productive public works, the fact of their being so should be noted against the entries.

5. It being of the utmost importance that early intimation of possible lapses, or of excesses, in outlay on works should be communicated to the Government, a close watch should be maintained on the progress of all works, and this form employed the moment the facts are sufficiently known.

6. Applications for re-appropriations which require the sanction of the Government of India should be submitted by the local Government in duplicate; applications by Executive Engineers should be submitted through the Superintending Engineers of their Circles.

No 4701 I

Bellary, 26th March 1897.

From
W. B. de Winton Esqre
Supdg. Engineer, III Circle,
Bellary.

1P.

To
The Chief Engineer,
for Irrigation,
Madras.

Sir,

With reference to your Memo Nos. III/5KC & 12 III dated 25th February & 12th March 1897 respectively, I have the honour to submit herewith a revised application for the modification required in the allotments of Kurnool Division and to request that you will be good enough to obtain sanction of Government to the same.

2. The Division Officer has been called upon to furnish a detailed explanation of the necessity for the present re appropriation of grant as the one furnished by him was too general and is not clear.

3. As the Official year is coming to a close, I request that you will be [illegible] enough to obtain early sanction.

P. W. D. Form No. 41H.

explanation which will be forwarded to you when received.

I have the honour to be,

Sir,

Your most obedient servant,

Supdt: Engineer, III Circle.

CHIEF ENGINEER
FOR IRRIGATION.
