MADRAS.

SIR,

With reference to Board's Ref:
on G. L. Ref. n^o. 4488 of 1897 dated
22nd September 1897 I have the honour
to state that the masonry compound
wall round the Tahsil office Tenkoi
- li is reported by the Tahsildar
to be not absolutely necessary. The
Tahsildar suggests that it would
suffice to provide wire fencing
(as at the Andivanam Tahsil office)
the cost of which is estimated at Rs 300.
The erection of mud walls will prove
less economical in the long run
as they will have to be repaired
almost every year. The Deputy

6287
12334/97

Deputy Collector suggests however that
a strong brick wall enclosing the
subjail alone and a Korakkapalli
(Juga dulis) fence in other parts will
suffice. I am of opinion that a
wire fence may be provided and the
Korakkapalli fence now existing
in parts only may also be completed.
The minor Irrigation Overseer also
reports that mud for erecting walls
is not available anywhere near
and that it would have to be
Carted to the place from a dis-
tance of a mile.

Have the honours

be

Your most obedt servant,

Asst. Magistrate

M. Collector

Proceedings of the Board of Revenue
(Land Revenue),

No:4080 Mis:,d/29th Oct: 1897.

Read the following:-

1. Letter from A.E.Castle Stuart, Esq., Collector of S.Arcot, to the Secretary to the Commissioners of Land Revenue Madras, No:745/Eng:,d/7th Sept:'97.

And the following Reference thereon,d/22nd Sept:'97:-

The cost of constructing a masonry wall round the compound of the Tk: Cutcherry and Sub-jail at Tirukkoilur is estimated at Rs.2140/-. The Collector is requested to state whether a mud wall with tiled coping which will be much cheaper in cost may not be substituted. If the probable cost of such a wall does not exceed Rs.500/-, the sanction of Govt: will not be necessary for the preparation of the estimate by the P.W.D.

2. Endorsement of the Ag: Secretary to Govt:, Rev: Dept: No. 1857, R, d/9th Oct: '97, transferring to the Board of Revenue, Memo from the P.W.D., No:3939 C, d/22nd Sept: 1897.

3. Also letter from A.E.Castle Stuart, Esq., Collector of S.Arcot, to the Secretary to the Commissioners of Land Revenue, Madras, No:881/Eng:,d/12th Oct: 1897.

Resolution:-

Submitted for the orders of Govt:

2. With the first letter read above, the Collector of S.Arcot forwarded for sanction a plan and estimate amounting to Rs.2140/- for constructing a masonry wall round the Tk: Cutcherry and the sub jail at Tirukkoilur. In its Reference d/22nd Sept: 1897, the Board requested the Collector to state whether a mud wall with tiled coping which would be much cheaper might not be substituted.
3. In the last letter read above, Mr: Castle Stuart recommends that a wire fence which is estimated to cost Rs. 300/- may be provided and that the Korakkapalle fence now existing in parts only may also be completed. He considers that the

with reply.

the erection of a mud wall will not prove economical in the long run as it will have to be repaired almost every year. It also appears that mud for erecting a wall would have to be carted to the spot from a distance of a mile.

4. In the circumstances stated the Board recommends that the construction of a plain wire fence costing about Rs.300/- may be sanctioned.

REVENUE DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read Proceedings of the Board of Revenue, Land Revenue, No:4080 Mis, d/29th Oct: '97.

Order thereon, No:6356 Mis, dated the 9th December 1897.

The Government observes that wire fencing is generally stolen and that the cost of replacing stolen wire would probably be greater than the cost of repairing a mud wall. Such repairs would afford excellent employment for the convicts in the sub-jail. A wall of sun-dried bricks or mud as originally suggested by the Board would probably answer the purpose best.

Orders for the preparation of an estimate accordingly will issue in the Public Works Department.
