NOTES.

Reference to P. W. D. Code.

Chapter I, Para. 30.

1. All proposals for changes in the scales of permanent establishments must be accompanied by a statement in Part I of this form when the changes relate to the engineer or upper subordinate establishments and in other cases by a statement in Part II of this form.

2. The column headed "present scale" should invariably show the existing sanctioned scale (not the strength of the establishment as it actually stands at the time), and should be verified by the Examiner before the statements are forwarded to the sanctioning authority.

Superintending Executive Engineer,

Dated the 12th January 1897.

25 JAN 1897

From C. H. J. Norfor Esq^r, Executive Engineer,
Tanjore Division, to the Superintending
Engineer & Circle, Madras, dated 21st
December 1896, No. 5188.

Adverting to G.O. No. 2377 W dated
17th Augt. 1896, sanctioning the appointment of a
Temporary Draftsman for a period of 6 months,
communicated to me with your No. 116 J.f dated
25-8-96, I regret to say that in spite of every
attempt it has been found not possible to
complete the list of component masonry works
during the sanctioned period, (which expired
by the close of November last) on account of
the subject being a big and a longstanding
one. The subordinates have also had more
than enough to do in the closing of breaches,
which occurred during the recent rains, to
devote any attention to this subject, and
the list of distributaries and drainages
have yet to be received from Sub-Divisions.
The recent transfer of a Draftsman from
this office to that of Col. Smart's has im-
-peded the progress of this work to some extent

also.

2. The Draftsman has during the last 6 months nearly completed the list of Main canals and branches; and, those that remain to be prepared are (3) Distributaries & (4) Drainages. The preparation and compilation of these lists must take another 6 months at least. I request therefore that you will be good enough to obtain the sanction of Government to the extension of the services of the present temporary Draftsman for that period.

3. The list classed under 2 Main canals and branches will be submitted shortly as well as the map of the Cauvery Delta.
