8

The following additional demands have, however, arisen: —

- | | N ^o of Upper Subordinates required | |
|--|---|---|
| (a) Preparation of type designs for Sanitary Works — | 1 | (A temporary Upper Subordinate has already been placed under the Sanitary Engineer) |
| (b) Opening up of roads in the Mopillah tracts — | 1 | (A permanent Upper Subordinate has been deputed to the work) |
| (c) Lighthouse D _u — | 3 | (Two have already been provided) |
| (d) Colair Lake Project, Kistna Eastern D _u — | 2 | (The Superintending Engineer, II Circle, has been asked to find the men required from the Circle Staff) |
| (e) Coorum Improvement Scheme — | 1 | (A permanent Upper Subordinate has been deputed) |

Total - 8

In drawing up the Scale, Items (b) and (e) have been omitted, as the Upper Subordinate posted to the Malabar

Malabar road work has been replaced by Mr. Peterson, and an extra man for the Coorum work has not been asked for.

The number provided under "Reserve" is to cover absences on the permanent list, the latter having insufficient margin for absences.

The scale now proposed is only provisional, as further demands may arise on account of the many water supply and drainage projects which are being handed over to the P. W. Department for execution.

Dr.

With reference to your
pencil query on the draft
order providing for tem-
porary Upper Subordinates
required for 1897-98, the
following explanation is
submitted: —

It will be seen from
the Appendix to G.O. No.
2802 d/5.11.95 that the
number of temporary Upper
Subordinates then allowed to
each circle was as follows

I Circle	17
II "	9
III "	11
IV "	8
V "	11
VI "	10

The above scale included
Subordinates provided for
tank works executed in
the following divisions (vide
the details given in Memo
No 759 d/10.2.96): —

Vizagapatam Dn	1	(I)
Kistna Northern "	1	(II)
Salem "	1	3 (IV)
N. Arc "	2	

* Flagged 'E'

* Flagged 'C'

W.L. 1/3/97

S. Arct — 2 }
 Chingful — 2 } 6 (Circle)
 Negapatain — 2 }
 Madura — 3 }
 Tinnivelly — 2 } 5 (Circle)

It follows, therefore, that
 the number of temporary men
 allowed to each circle on
 account of ordinary works
 was as under:

I Circle — 16
 II " — 8
 III " — 11
 IV " — 5
 V " — 5
 VI " — 5

Since the above scale was
 sanctioned, the following
 modifications have been
 made:

I Circle — No. allowed, reduced
 by 5, in consequence of the
 amalgamation of the
 Ganjam & Rushikulya
 Divisions — G.O. 794 W of
 6.3.96 # Flagged 'D'

II Circle — 2 more men allowed to the
 Nellore Dist. vide G.O.
 986 W of 19.3.96 in the
 note marked thus +.

2 men sanctioned for the
 Chais Lake Project
 — G.O. 3179 W of 26.11.96
 Date — 4 # Flagged 'A'

These modifications are
 taken into account in
 the

the draft order.
 Regarding the number of
 men allowed therein for
 (a) J. R. Scheme (Investigation)

and (b) Lighthouse Dr. ; —

6 men are provided under
 (a) because there are 6
 parties, and 3 are
 provided under (b) as per
 para 4 of Mr. Ashpitel's letter
 recorded in G.O. No. 2156 W
 of 27.7.96.

+ Flagged 'W'

No upper subordinate
 has been allowed for
 the Anamalai bridge path
 survey because the work
 is now in charge of an Asis-
 tant Engineer, and it is not
 known when upper subordi-
 nates will be required, and
 how many.

S. A. D.

Order for 1898 the Government

The accompanying draft order provides for the establishment of temporary upper subordinate requirements during 1897-98. The same proposed during the same as the existing pattern current year.

The following requirements included in the scale for the current year have ceased to exist.

I fix the scale of temporary upper subordinate Establishment for 1897-98. it has to be considered,

First, What requirements provided for in the scale for the current official year, have ceased to exist, and

Secondly, what requirements, not so provided to have arisen.

Of the former kind are the following:

(1) Restoration of irrigation channels in the Chikade taluk, Raichur Dt. —

Nº of upper subordinate provided

(2) An upper subordinate to work under Lieut. Col. deputed to trace a road on the Palni Hills —

1 for 2 months

(3) Tank Restoration Works.

Viragapatam Dt. —

1

Nagapatam —

1 (out of 2 provided)

Madura —

1 (out of 3 provided)

Total Nº. 5
Set free

Since the fixing of the scale for the current official year

the

the following demands
have arisen: —

no of upper
subordinates
required

- (1) Preparation of type
designs for Sanitary
Works — 1 (A temporary upper subordinate
has already been placed
under the Sanitary Engineer)
- (2) Opening up of the
Wynand Hill tract
in view to deal
with the Mopikah
outbreaks — 1 (A permanent upper subordinate
has been deputed to the work)
- (3) Light House Division — 3 (Two have already been
provided)
- (4) Colair Lake Project,
Kistna Eastern Div — 2 (The S.E. 2nd circle has been
asked to find the men
required from the circle
Raff)
- (5) Coorasa Improvement
Scheme — 1 (A permanent upper subordinate
has been deputed)

Total No. } 8
required } —

From the above it is
clear that for the next fiscal
year, the number of temporary
upper subordinates should
be rather more than less
than that allowed for this
year, and this independent
of the men required for
relief works.

22.2.97

on In order whether
the scale may be drawn
up on the above basis.

Cs 22.2.97
23.2.97

In drawing up the scale, the
a) & (c) have been omitted, as the
upper subordinates posted to the
work have been replaced by the
Pulavani, & an entire man for the
Coorasa work has been added for
the number provided under
"Reserve" is to cover absence on the
permanent list, the latter having an
allowance for absence.
The scale was proposed as
only provisional, as further demands
may arise on account of the many
water supply & drainage projects which
are being handed over to the S.E. circle
for execution.
