Total ..	..	..	..	39,514

To the Superintending Engineer, I Circle, dated 30th June 1897, No. 107 I./G.D.

From J. C. LARMINIE, Esq., M.I.C.E., Superintending Engineer, I Circle, to the Chief Engineer for Irrigation, dated Cocanada, 18th July 1897, No. 858 G.D.

Referring to your memo. No. 107 I./G.D. of 30th June 1897, I would invite your re-perusal of the list of works forwarded with my letter, No. 698 G.D. of 20th June 1897. You will then observe that all the works therein specified are of a nature rendering their postponement *absolutely unavoidable*, in fact they are all more or less nearly completed and the liabilities have to be met.

There are no funds available for transfer from other divisions. It is further imperative that there should be a sum held in reserve with a view to possible flood damages, so the lowest amount that has to be provided is Rs. 25,000 as mentioned in my former letter.

No. 168 I.

Submitted to Government.

2. The reserve of Rs. 19,917 at the disposal of Government may be transferred to meet in part the demand for an additional grant of Rs. 25,000, under Agricultural Works—Repairs, in the Gódávari Eastern division. There are no funds available to meet the balance of the demand.

(Signed) W. HUGHES.
Chief Engineer for Irrigation.

3rd September 1897.

Order—No. 821 I., dated 9th September 1897.
