FURTHER PAPERS.

2nd Circle.

Division.

Application for modifica-

tion of Irrigation allotments for

1897-20

Letter from J. K. Batten Esquire,
Acting Collector, Krishna District to
the Sub Engineer, II Circle, dated
9.8.97. Ref No. ⁸ gent 797. 18.

I have the honour to request
that you will be good enough
to have as many ordinary sanctioned
works as you can immediately
put into execution in Vinukonda
Taluk to afford additional
means of livelihood to the poorer
classes.

Encl. on the above by the Sub
Engineer, II Circle, No 1388 K.N. dt 11.8.97

Letter from Captain W. M. Ellis,
A.E. Executive Engineer, Krishna
Northern Dn. to the Sub Engineer, II Circle,
dt 13.8.97. N 9337 S.E.

With reference to your endorse-
ment No 1388 K.N. dt 11.8.97 on the Collector
Krishna, No ⁸ gent of 9.8.97 requesting
ordinary works in Vinukonda Taluk
to be sanctioned and put into exe-
cution immediately, I have the
honour to report that in all
Vinukonda

Vinukonda taluk, there are only 4 Imperial Tanks in my charge

- (1) Dandapadu Tank
(2) Nadigadda

The works on these forming the Dandapadu Tank Project have quite lately been completed and but little ordinary work could advantageously be undertaken.

- (3) Pedakancherla tank

An estimate for some Rs. 1000 could be sanctioned early but most of the work required is repacking rivetment which requires an empty tank and skilled labour; about Rs. 400. earthwork and clearing jungle could be done if an allotment is given.

- (4) Spoor tank.

Work was stopped on this in May owing to the transfer of the overseer in charge Vinukonda and the funds provided have been spent instead on Munygeru Project works. Nearly all the earthwork of the bund has been done

+ Not more required, as the sumner lately made from 43 Munygeru, has been repaired by the C.E. P.W.D.

W.D.
26.8.97

done but earthwork to the value of Rs. 4000 and collecting ballast to the value of Rs. 3000 could be carried out here if an overseer can be put in charge.

2. From the above it will be seen that if an overseer and funds are given two works can be put in hand but this is all and only one of these works "Spoor Tank" is likely to prove of any assistance.

I request the earliest possible information if the Spoor works are to be resumed.

In such a case Mr. Mullen Overseer, Eastern D. under orders for transfer to this D. will be sent to Vinukonda.

Genl.
(Application for modification of allotments)

NO 1518 R.V.
27.8.97

Forwarded

to the Chief Engineer for irrigation with a request that an allotment of Rs. 7000 may be made to the District Northern D.
