CHIEF OFFICE OF THE INSPECTOR-GENERAL OF POLICE,

MADRAS, 8 October 1897.

FROM

M. HAMMICK, I.C.S., Esq., I.C.S.

INSPECTOR-GENERAL OF POLICE,

Madras,

TO

THE Chief Secretary to Government,

Ootacamund.

SIR,

ENCLOSURES.

I have the honor to bring to the notice of Government that the drainage in the vicinity of the Police station-house and lines at Naduvattam in the Nilgiris is very unsatisfactory. The station-house is built on a level cut out of a hill, and consequently a good deal of water comes down in the monsoon. Water is carried by means of a channel dug from an adjacent hill and led to a point in the bank just behind the station-house. For want of a cistern, the water is continually flowing and makes the place very damp. To secure better drainage, the Executive Engineer suggests the construction of a cistern on the bank with a stand-pipe attached. A rough plan showing the proposed improvements is enclosed. The present drain is marked in blue pencil.

2. It is also proposed to fence the land marked in red pencil in the accompanying plan. If this is done, the ground can be cleared up and allotted to the men living in the Police lines as gardens.

3. The improvements proposed are, in my opinion, advisable and are estimated to cost Rs. 350. I request that Government will be pleased to direct the execution of the work by the Public Works Department.

I have the honor to be,

Sir,

Your most obedt. servant,

M. Hammick

Inspector-General of Police.
