GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Civil Works.

READ—the following papers:—

From the Honourable Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, Madras, to the Secretary to Government, Local and Municipal Department, dated 14th April 1897, No. 4121.

When Government middle schools were transferred to the management of the district boards the school buildings were also made over, rent free, to them under G.O., No. 1869, dated 13th August 1884, subject to the conditions that they would be kept in repair by Government.

2. Some of the middle schools have since developed into high schools, and in consequence require additional accommodation. One such school is the Board High School, Námakkal, on account of which an estimate of Rs. 520 has been received for repairing the Government building occupied by the school, but I consider it better that the district board should make the necessary improvements. For, most of the board buildings occupied by Government schools have been handed over to the department on condition of Government undertaking to make the necessary additions without any claim for compensation for the outlay (*vide* G.O., No. 263 W., dated 30th January 1894, in the case of the Government Training School for Masters, Coimbatore). As I thought the same course might safely be adopted in the case of Government buildings also, I enquired if the District Board, Salem, would be willing to have the Government building at Námakkal transferred on lease, say, for ten or twenty years. It will be seen from the enclosed extract from the Proceedings of the Taluk Board, Námakkal, that the board is prepared to take it over for a period of twenty years, subject to the condition that it bears the cost of the necessary repairs and extension, and that if, in the meantime, the school be closed, the building be handed back to Government without any claim for outlay incurred for improvements.

3. As the Government school at Madanapalle has been transferred to the members of the Native High School on similar conditions, I have the honour to recommend that the Government building at Námakkal also be likewise transferred to the District Board, Salem.

NOTE.

+ Flag? E
In his letter No. 4121 dated 14th April 1897, the Director of -- Public Instruction recommended that the building used as a Board High School at Namakkal be transferred to the Taluk Board for a period of 20 years on the conditions that the cost of the necessary repairs and extensions be borne by the -- Board, and that if, in the meantime, the school be closed, the building be handed back to Government without any claim for outlay incurred on improvements.

+ Flag? F
About the same time, the Director of Public Instruction had recommended that a Government building at Erode be handed over to the Manager of the Town High school at that -- place on similar conditions, but on the advice of the Examiner, P.W. Accounts, the transfer was sanctioned in this case (G.O. No. 1441 W dated 28-5-97) on the conditions that the building be kept in repair and handed back to Government if required on six months' notice.

It

It was therefore proposed in a draft order on current No. 4911 to authorise the transfer of the school building at Namakkal to the Taluk Board on the same conditions as those sanctioned in the case of the Erode -- building. His Excellency however -- pointed out in note dated 28-6-97, that the conditions differed from those accepted by the Taluk Board, and directed that before orders were passed, the Taluk Board should be asked if they agreed to the new condition proposed.

The necessary inquiry was made, and the Taluk Board now expresses its inability to accept the condition that the building should be handed back on six months' notice, and adheres to its previous proposition.

Since the inquiry was made in regard to the Namakkal school house, the conditions sanctioned in G.O. No. 1441 W dated 28-5-97, with respect to the Erode building, have had to be modified, difficulties having arisen regarding the terms on which the cost of improvements should be refunded to the manager. In G.O. No. 2562 W dated 16th September 1897, the Erode building was transferred to the school manager on the terms originally recommended by the Director of Public Instruction, viz, that the period of loan

be 20 years, that the cost of repairs and extensions be borne by the manager, and that if, in the -- meantime, the school be closed, no -- claim should be preferred against Government for outlay incurred on improvements.

It seems best to sanction the transfer of the Namakkal building on the same conditions, and a draft order is submitted accordingly.

It may be mentioned that similar conditions were sanctioned in the Educational Department in the case of a school building at Madanapalle.
