FURTHER PAPERS.

G.O.	No.	Department.	Date.

Letter from the Executive Engineer Coimbatore Division to the Superintending Engineer Fourth Circle No 3795 dated 27th September 1897.

Encls.

1 S.E. No 491 returned.
1 Tracing

In returning the enclosures by your No 491 dated 16th August 1897, I have the honor to report that I consider the cemetery at Wellington should be extended to the east and the Chaplain agrees with me in this opinion. I enclose a tracing showing the eastern portion of the existing cemetery and the proposed eastern extension marked by red dotted lines.

A small additional area, can I think be obtained by correcting the alignment of the channel to the north of the existing cemetery.

I have had pits dug here and there over the proposed eastern extension and the soil at all pits is suitable for excavating graves to a depth of 6 feet.

A path or track exists close to the eastern boundary of the existing cemetery, but I understand this is not a right of way and that there is no objection to closing it.

The ground in the proposed eastern extension is somewhat uneven and will have to be levelled and terraced or sloped.

Yours

There is also a small cross drainage to be provided for.

No. 529 of 30th Sept. 1897.

Copy forwarded to the Chief Engineer P.W.D. with reference to his endorsement No 1121. D. dated 14th August 1897 herewith returned

W. Annan
Suptg. Engineer, 4 Circle.

SUBJECT.

The proposed widening of the Cemetery at Wellington
extension is the best available.
The only alternative seems to be forwarding a tracing
to close the Cemetery & open showing the proposed
a new m. on the line to extension to the
the North of it between the
Cemetery & the Church
