Note

From the Correspondence recorded with the Proceedings of Government in the Local and Municipal Deptt No 1956 & Mis dated 22nd October 1896, it will be observed that the Dt Board is unable to undertake the road from Karemudi to Macherla from want of adequate funds. The road is about 22 miles in ^{length} distance and the Cost of Construction is estimated at about Rs 80,000 by the Local Fund Deptt. As important irrigation works are about to be undertaken in this neighbourhood, the Superintending Engineer II Circle recommends very strongly the improvement of Communications in this part of the District. Vide the Suptg Engineer's inspection note disposed of by the Chief Engineer for Irrigation, in endorsement No 21 W dated 30th April 1896

Letter from H. T. Keeling Esq. District
Engineer Krishna Northern Dy. to the
Supg. Engineer, Sec. Civil, dt 18.12.96. No 627/2.

With reference to your No 2483 of
4.12.96 and previous correspondence
on District Board Resolution, I have
the honour to forward herewith a
proposition statement for the employ-
ment of a Surveyor for 6 months
to prepare the Survey necessary for
making an estimate for a road from
Karempudi to Macharla.

2. This distance will be about
twenty two miles. The importance of
the road is recognized by all, and
I need scarcely point out that its
existence would tend to lessen the
cost of the works about to be under-
taken in that neighbourhood.

3. The estimate for the road
from Macharla to Sumarcodu is
now under preparation in my office
and should be ready shortly.

4. The time allowed for the Survey
seems long but has been allowed
as the Surveyor recently employed
on similar duties for the estimate
mentioned in para 3, spent one
out of every two days in bed with
fever. It is thought that some
allowance should be made for
contingencies of this sort and so
the

the time has been made six months instead of 2½.

Memo.

With reference to endorsement from the Supty. Engineer II Circle No 2836 K.N. dated 9th January 1897 the undersigned has the honour to request that the correspondence referred to in para 1 of the Executive Engineer's letter No. 6217 S.E. of 18th December 1896 may be furnished for reference.

Note. This correspondence will explain the necessity for the establishment applied for, and H.E. will probably wish to see it before according sanction.
